

Tent caterpillars

Now is the time to prevent damage

Many of the trees lining Kentucky's roads and highways are showing traces of gray raised by their spring greens. The gray is provided by the "tent" of the Eastern Tent Caterpillar, whose web or tents are found in the forks of tree branches.

growing season which can cause moderate damage to trees and crops, forestry officials said. Tent caterpillars initially live in their webs, but move out of the webs to feed on tree leaves, Dorset said. "When they are fully grown, they leave the trees and enter the pupal, or non-eating stage. At this point they crawl or walk to be found this time of year in cherry, peach, plum, apple or pear trees.

Richard Dorset, pest control specialist with the Kentucky division of forestry, said the caterpillar is likely to be found this time of year in cherry, peach, plum, apple or pear trees. "The most common forest host for these caterpillars is the wild cherry tree," Dorset said. "Unlike the other fruit trees chosen by the caterpillars, these trees are rarely harmed by caterpillar infestations."

However, a large number of tent caterpillars can affect the size and amount of fruit produced by the blighted tree, he said. "They can affect the health of a tree as well. If there are repeated infestations, they can kill the tree's limbs and branches," Dorset said.

The most effective measures for controlling the tent caterpillars are destroying the tents while the caterpillars are inside or spraying them with pesticides containing severe diazinon, he said. "If you fail to destroy the tents, be sure to go out in the early morning or late evening, when the caterpillars are active," Dorset warned.

Tents may be as large as three feet across and may contain several hundred caterpillars, he said. To be effective, sprays must be used directly on the caterpillar or on the foliage on which they feed, not on the webs," he explained. The caterpillars have a six-week

Save time by using the tent caterpillar spray. It kills the caterpillars and destroys the tents. It is safe for people, pets and plants. It is available in 1-gallon and 5-gallon sizes. Call for a free literature kit.

Big Catch

A group of local fishermen display a catch of large mouth bass caught in the county earlier this week. The anglers declined to identify the spot where they caught the fish. They only commented, "You had a gold mine and were taking out nuggets left and right, you would find everyone where it was?" Pictured right to left with their string of fish are "Little Jimmy" King, Jimmy King, Paul King and "Top" King. — Mercury photo.

Bass fishing shows improvement in lakes

Bass fishing has improved at several lakes, but frosty nights and cool rains have chilled the water and the fishing at many of Kentucky's 15 major reservoirs. The lake-by-lake survey, compiled from reports by fish and wildlife conservation officers:

Barren: Black bass fair to good early and late on spinnerbaits, plastic worms and live crawfish; crappie slow; clear to murky, rising slowly at 1 1/2 feet below summer pool and 47 degrees.

Dale Hollow: Bluegill good with worms and crickets around shoreline; white bass fair at night with minnows over submerged cover; clear, falling slowly at five feet below summer pool and 46 degrees.

Green River: Crappie good with minnows and stick-ups; black bass fair on spinner baits and plastic worms; clear to murky, stable at summer pool and 46 degrees.

Herrington: Black bass good on surface lures and plastic worms of dipping banks; crappie fair around shallow cover and stick-ups; bluegill slow; clear to murky, stable at four to five feet above summer pool and 46 degrees.

Kentucky: Black bass slow in main lake; in tailwaters, catfish fair to good; clear to murky, stable at summer pool and 46 degrees.

Laurel: Trout good at night on worms, chironomid and bluegill good on worms and crickets on shallow banks; black bass fair on surface lures in inlets and bays; clear, stable at 14 feet below power pool and 48 degrees.

Rollins: Black bass fair to good on surface lures and plastic worms of dipping banks; crappie fair around shallow cover and stick-ups; bluegill slow; clear to murky, stable at four to five feet above summer pool and 46 degrees.

Saltwell news

Mrs. Hagena Matton and Buddy Switzer, Cynthiana, and Jeff Matton, were Sunday guests of Mr. and Mrs. Chester Matton.

Don't forget the revival in progress at the Saltwell Church through Friday night, each evening at 7:30 with Rev. James Bon Durant of West Ohio Methodist as evangelist.

Mrs. Arnold Matton and Brenda returned to their home in Lexington last Thursday after several months' stay in Los Angeles, Calif. They visited Mr. and Mrs. Allen Rule, Mr. and Mrs. Chester Matton and family, Mr. and Mrs. Vaughn Matton, and were Sunday guest guests of Mr. and Mrs. Fred Holler.

Mrs. Bobby Brady attended the college graduation of her niece, Miss Lisa Doyle, with other family members at the University of Kentucky on Saturday.

Our community extends sympathy to the family of Stanley Fredback, who passed away Monday afternoon in Cynthiana. Funeral was conducted on Thursday at Whaley Funeral Home by Rev. Howard Livingood, with burial in the Saltwell Cemetery.

Mr. and Mrs. E.P. Laughlin spent the weekend with Mr. and Mrs. Robert Laughlin, Lexington, accompanied with his doctor there on Monday.

Mr. and Mrs. Fred Holler attended the home sales at the White House on Saturday night and dined at a restaurant there.

Mr. and Mrs. Robert Wain, Phillip Matton, Charles Jones, Roy Gaunce, Howard Price and Tommy Stone also attended the sales.

Mr. and Mrs. Lloyd Graham and daughters attended a family dinner at the home of Mrs. Viola Brown and son, Sidney Creek Road, on Sunday.

Mr. and Mrs. Billy Stone, Mr. and Mrs. Andy Fryman, Mr. and Mrs. David Doyle and Rev. Howard Livingood, recently and remains ill at his home.

Howard Livingood Jr. was a patient at Veterans Hospital several days the past week.

Mrs. Naomi Gaunce spent Sunday with Mr. and Mrs. Steve Gaunce, Lexington.

Mr. and Mrs. Richard Cain spent Sunday with Mr. and Mrs. Gary Cain, Millersburg.

KMA to sponsor Recruitment Fair The Kentucky Medical Association announces it will sponsor the third annual Physician Recruitment Fair in Louisville Oct. 1. Last year 38 communities attended and met with 150 physician candidates. This year the Fair will be held at the Harmana Innsbruck Grand Convention Center, and it is anticipated that over 75 communities will be in attendance.

The program continues to provide the necessary contact between communities and physicians to begin the process of recruiting their services in Kentucky. Many communities have been successful in meeting their physician needs from this program. Both large metropolitan hospitals and community search committees will vie for the services of the physicians who participate in this year's Fair.

Communities interested in participating in this program are requested to contact Joe Witherington at the KMA Headquarters Office located at 382 Ephraim McDowell Drive, Louisville, Ky. 40202.

Brown proclaims Appreciation Week Gov. John Y. Brown Jr. has proclaimed May 17-23 as Industry Appreciation Week in Kentucky.

In his proclamation, Brown said 51 new manufacturing plants were sited by Kentucky last year and 240 Kentucky firms expanded their operations. More than 12,000 new jobs were realized from those efforts, the proclamation noted.

Manufacturing industries now provide approximately 272,000 jobs in Kentucky.

Aluminum scrap rate is adjusted

The Reynolds Aluminum Recycling Company has announced it will continue to pay 30 cents per pound for recyclable beverage cans collected in the Lexington area. The company will also pay 25 cents per pound for all other types of aluminum scrap, including aluminum sheet and siding, tubing, lawn-mower housings and automobile parts.

All aluminum scrap other than beverage cans must be cut to lengths no longer than 1 1/2 feet, must be free of dirt, bolts and nuts, and must be boxed or securely banded. These measures are necessary to determine the scrap's net weight.

Reynolds buys aluminum scrap at the Turfman Mall, Harrodsburg and Lane Allen Road, every Tuesday and Saturday from 11 a.m. to 12 noon.

For more information on the Reynolds aluminum recycling program, call the company's toll-free number: 1-800-255-2222.

Mint Julip Meet May 16-17

Model airplane hobbyists will get together at Rough River Dam Resort Park May 16-17 to test their flying abilities at the sixth annual Mint Julip Meet.

Flies will compete for prizes to be awarded to the top five finishers in several flying classes. A banquet is scheduled for Saturday. The meet is hosted by the Mint Julip R/C Association and the Kentucky Department of Parks.

Further information may be obtained by contacting Gordon McLean, 4027 West Conard Road, Louisville, Ky. 40207. The phone number is (502) 886-0131.

WIU student honored for eagle research

Robert Givens Harper, graduate student in biological sciences at Western Illinois University, has been selected for a 1981-82 student award by the American Ornithologist's Union.

Harper is a native of 219 Chestnut Street, Cassia, Idaho. He earned his bachelor's degree at Transylvania University in Lexington.

His selection was based on his present and proposed research with wintering bald eagles at Lock and Dam 24 and the area around Keokuk, Iowa and at Pike County along the Illinois River.

Harper works under the direction of Dr. Thomas Dunstan, associate professor of biological sciences at WIU and a recognized national authority on the bald eagle.

THE CARING CORNER Psalm 145: 9 "The Lord is good to all, and his compassion is over all that he has made." Here is your spring garden recipe that you asked for: First, plant three rows of peas: Perseverance, politeness and prayer. Next to them plant three rows of squash: Squash possess, squash selfishness, and squash indifference. Then plant three rows of lettuce: Let us be loyal, let us be truthful, and let us love one another. And no garden is complete without turnips: Turn up your work, turn up for Church, and turn up with a smile! Lord, lend me your towel. Join us this Sunday as we turn up with a smile.
