The raid, which took place near Amburgey, resulted in the confuscation of a buildoore valued at approximately \$200,000 and a front loader valued at approximately \$150,000. A small state belicopter was used to help locate the equipment near the Letcher-Knott county line. Coal valued at between \$10,000 and \$12,000 was illegally mined at the sites each weekday, Doug Shoulders, special investigative unit chief, estimated. Weekend operations may have brought in as much as \$00,000 to \$70,000 each weekend, state officials said.

Investigations are continuing in the area, Shoulders said.

Under a law passed by the Genera Assembly, all equipment seized at ar illegal mining site is held for sale at public auction. Sale proceeds are used to pay for reclamation of the illegally mined sites.
