NCHS gets video recorder

Students at Nicholas County High School now have the opportunity to experience video production first hand thanks to federal funds granted through the Chapter II project. A video camera and a video recorder has recently been purchased for use with the enrichment program that began this school year. (See picture elsewhere.)
 Students involved with the enrichment program will receive an orientation on the operation of the video equipment. As a follow-up activity, they will write a script and film a 10-15 minute production. After all students have completed their assignment, they will meet to view and discuss their projects.
 The video equipment will not be confined to use by only students in the enrichment program. Plans for filming a weekly school news program is
