County tree put up

County officials put their Christmas tree on the courthouse balcony this year because of vandalism in years past when the tree was on the lawn. Shown here putting up the tree were, from left, Judge-Executive Reese Smoot, Magistrate Harold Mitchell, Sheriff Charles Ring and Courtney Gum. — *Mercury photo.*

Three out of four Nicholas fatal accidents alcohol-related

Alcohol played a role in a large percentage of fatal traffic accidents which occurred on Kentucky roads in 1980 and 1981, according to information released by the Kentucky State Police records section.

A computer analysis of Kentucky data by a federal agency indicated 65.8 percent of fatal traffic accidents in 1981 and 62.6 percent of those in 1980 were alcohol-involved.

Federal definitions for the terms "fatal accident" and alcohol-involved were used to produce these percentages.

In Nicholas County for 1980, the figures show two fatal accidents with both listed as alcohol related. In 1981, two fatal accidents are again listed with one alcohol related.

The federal definition of fatal traffic accident in an accident which results in death or deaths within 30 days of the wreck. (The federal figures for traffic deaths in Kentucky will differ from state totals because the state includes deaths occurring within 90 days of the accident.)

An accident is considered alcohol-involved if the police report indicates drinking was involved or if a follow-up test shows a measurable amount of alcohol present in the blood of anyone involved in the accident.

The analysis was done by the National Center for Statistics and Analysis, an agency of the National Highway Traffic Safety Administration. The center maintains the Fatal Accident Reporting System, a computerized file used to identify highway safety problems.

Association formed for jail consulting

The Lexington firms of Mayes-Sudderth-Etheredge Consulting Engineers and McLaney/Omni Architects have formed an association to provide jail planning and design services in Kentucky. E. Eugene Miller of the NBBJ Group will serve as the association's special consultant for criminal justice services.

Corrections officials throughout the nation are faced with the responsibility of meeting strict new standards for the housing and treatment of prisoners. Kentucky's new standards are scheduled to go into effect Jan. 1, 1983.

The MSE-McLaney/Omni team proposes to work with local authorities in meeting these legislated requirements. Alternatives including modifying or renovating existing jails, building new facilities, and the feasibility of joining forces with others to construct a central facility to serve the needs of several counties. The team stresses the necessity that each county government meet its obligations in the manner which is best suited to that county's needs and abilities.

with the making of nonsense verses, but somehow I keep thinking of poor Robert Louis Stevenson and his requiem, which does race through my brain. A brave, gallant verse it is:

Under the wide and starry sky
Dig the grave and let me lie.
Glad did I live, and gladly die,
And I laid me down with a will.

Indigestion, of a surety. And hoglillin' is the offing and spareribs and fresh sausage and snowy hominy — and so on this thought to sleep.

County had 40 percent of its population with high school diplomas, Robertson also had 40 percent, Bath had 35 percent, Montgomery 46 percent and Bourbon County a surprising 53 percent.

Season's Greetings

During the year, in the rush of events, we tend to overlook the important friendships that are the true basis of business relationships. One of the great pleasures of the Holiday Season is the opportunity to exchange cordial greetings with those whose friendship and goodwill we value so highly.

In this spirit it is our pleasure to say "Thank You" and extend our sincere appreciation for the very pleasant association we enjoy with you.

May a bright and prosperous New Year bring happiness to you and to yours.
