## UK gets tobacco grant

The University of Kentucky College of Agriculture has received \$81,400 from Philip Morris U.S.A. to support further tobacco production research and education.

The funds represent the third installment of a \$244,200 grant and endowment program begun by the tobacco company in 1978 to support the college's tobacco research and education program.

The current installment continues the grant and endowment program and provides for a professorship in tobacco research.
