be the reason for bad grades at times." Mr. Adams also said that wabbits should not be taken lightly, they can cause hearing damage.

## Fertilizer

nothing wrong with liquid fertilizers, rather the problem lies in the claims made in selling the product. Adams said that, in UK, and other universities has shown that when comparisons are made on a plant nutrient content basis, there is no significant difference between liquid and dry fertilizers on prepared plant response, he said.  
Anyone who has been sold a solid nutrient, the organic cleaner, or liquid fertilizer under any such claims should contact Dr. D.L. Terry, Coordinator, Fertilizer Program, Division of Regulatory Services, University of Kentucky, Lexington, Ky. 40546-0061, phone 988-254-0668 or 254-2796.
