Apply now for college scholarships

Students in need of financial aid for next fall should begin to apply for the thousands of scholarships being offered by private foundations, trade and civic groups and other sources. There are over 25,000 different scholarships available, according to the director of the Scholarship Bank. Scholarships are available from tax exempt foundations that are required by law to make a certain amount of financial aid available each year in order to maintain their tax-exempt status.

The Scholarship Bank matches students available and sends the student a print-out of the private financial aid sources that appear to be most promising for that student. Each student may receive up to 50 sources of aid. Most scholarships have a value of approximately \$100, and many are renewable annually. Financial need is only one of several criteria to receive aid. According to the Scholarship Bank, academic performance, military service of the student or his parent, major in college, academic, military, civic heritage, occupational goal, employer, union membership, and whether the student is interested in work-study, loans, essay contests and other activities.
