Producers with no outstanding loans and who are unable to harvest for PFK will not receive a PFK payment.

Land designated for conservation use must have been devoted to row crops or small grains in two of the last three years except for a summer fallow farm. Under summer fallow rules the land must be acreage that would have been planted to small grains or row crops in 1984 in the absence of the 1984 wheat program.

—Haying will not be permitted on the conservation use acreage. However the acreage may be grazed except during the six principal growing months.

—Offsetting and cross compliance will not apply to the 1984 program.

—There will be no immediate entry into the farmer owned reserve for the 1984 crop of wheat. Further, USDA intends to review the size of the reserve before regular price support loans for the 1984 crop reach maturity. A rolling may be placed on the size of the wheat
