SAVE \$14.00 OUT OF EVERY \$50
By Shopping in Carlisle

Did you ever drive 60 miles or more to take advantage of a super special? An item that costs you \$50 locally would have to save you \$14.40 if you drove 60 miles round-trip to get it and just wanted to break even.

The American Automobile Association certifies that 24.0 cents is what it costs to drive your car one mile. So if you've driven 120 miles round-trip to pick up that special, you'll have to add \$28.80 to the cost of your purchase. That sweet buy can suddenly turn quite sour.

And each 120 miles takes 6 to 12 gallons of gasoline which the potential shortage of oil-derived fuels would encourage us to save.

Local merchants, whether they sell groceries, clothing, drugs, hardware, appliances or whatever, feature top line nationally advertised products at competitive prices. These same merchants support your schools, churches and civic groups. They help us all pay for the improvements that make this a better place to live.

So save yourself some money, help fight the energy crisis and support local merchants. And save the drive to faraway communities. Shopping at home is a wonderfully simple way to do yourself several favors at once.
