Employee of the Quarter

Andy Dudley, president of The First National Bank, bestowed the honor of being Employee of the Quarter on Miss Susan Ritchie last Thursday. Miss Ritchie, who is a 1980 graduate of Nicholas County High School, has been with the bank two and one-half years, and serves as a new accounts clerk. She is the daughter of Mr. and Mrs. Glenn Ritchie, and resides with her parents at Rt. 1, Carlisle. She is a member of the Carlisle Christian Church.—Mercury photo

— Personals —

William Riggs, father of Dr. Leon Riggs, submitted to major surgery last week at St. Joseph Hospital, Lexington.

Mr. and Mrs. Stephen Curtsinger entertained last Sunday with a cookout at their home at Lake Carnico in honor of their daughter, Sarah Ashley's second birthday. Twenty-one family members were in attendance.

Mrs. George Roberts and Miss Beulah Hughes spent last week with Mrs. Roberts' daughter, Mrs. Larry Gabriel, Mr. Gabriel and Annie in Worthington, OH.

Edwin Motch, Cleveland, OH, and Mr. and Mrs. Alfred E. Motch of New Richmond, OH, visited their relative, Mrs. Ina Motch Brady last Thursday.

Mrs. W.F. Gallaway, who has been visiting her sister, Mrs. Warren Fisher and Mr., Fisher, spent the weekend with her nephew, Toby Elder, Mrs. Elder and children in Edgewood. Mrs. Gallaway returned to her home in Richmond, VA, on Tuesday.

Mrs. James Bryant and sons of Atlanta, GA were recent guests of her mother, Mrs. Hazel Moore.

Mr. and Mrs. Charles McCann have returned from a visit with their sons, James McCann, Annapolis, MD, who recently received a B.S. degree in electronics from Capital School of Technology; Jack McCann of Washington, D.C.; and Jakie McCann, Richmond, VA. They also visited friends in Gretna, VA.

Mrs. Carroll Wallace, Mrs. Marion Sims Jr., Mrs. Lloyd Wells, Mrs. David Zachary, Miss Jan Sparks, Mrs. Eddie Day and Mrs. Larry Woosley have returned from a four-day golfing trip to Lake Barkley State Park.

Summer visitors will find special exhibitions at Cincinnati Art Museum

Summer visitors to the Cincinnati Art Museum will find two special exhibitions, which opened June 25, as well as newly installed areas of the permanent collection and the attractions of the museum's restaurant and shop. "Venini Glass" will run through Aug. 7 and "19th Century German Drawings from the Grand Duchy of Baden" through Sept. 4.

Also scheduled for the summer months are repeat presentations of the popular art appreciation seminars held last winter on the handsomely renovated Near and Far Eastern Arts galleries. The Wednesday series begins on July 6, for four weekly sessions from 1-2:30 p.m. The Saturday series is from 10:30 a.m.-12 noon weekly, beginning July 9. Information on fees and registration is available by calling the Education Department at 721-5204.

"Venini Glass" presents a brilliant selection from the 60 year history of one of the most innovative of modern glassmaking companies. Bold designs, new techniques and pure, rich colors carry on the centuries old Venetian glass tradition through the work of an international corps of designers, painters, sculptors and architects. The 144 works take on a special significance at the museum, where the works of immediate forebears in the field (Emile Galle, Louis C. Tiffany, Rene Lalique) may be seen in the permanent collection. "Venini Glass" was organized by the Smithsonian Institution Traveling Exhibition Service from the collections of Venini International, S.R.L. A catalogue, illustrated in color and black and white, accompanies the exhibition.

The 19th century German drawings form a distinguished exhibition appearing only at the Cincinnati Art Museum, on loan from the Staatliche Kunsthalle Karlsruhe in Germany. The works range from late romanticism to realism and all date from the period between 1825 and 1880. Despite their finished appearance, most were studies for paintings and a few were the notations of architects, allowing the viewer an intimate look at the artists' working processes. Landscapes and portraits dominate the show, which is accompanied by a fully illustrated catalogue.

Summer visitors will also find new installations of the permanent collection in many areas of the museum. Porcelain, glass and tin glazed earthenware from Europe, recently reinstalled in the decorative arts section, the showing of post World War II paintings and sculpture has been expanded and the Near and Far Eastern Arts galleries underwent a major renovation to reopen a few months ago.

The Terrace Court Restaurant, now licensed to sell wine and beer, serves lunch from 11 a.m. to 3 p.m. Tuesdays through Saturdays. The Museum Shop opens with the museum and closes at 4:30 p.m. Museum hours are 10 a.m. to 5 p.m. Tuesday through Saturday, 1 to 5 p.m. on Sunday, closed on Mondays. A small admission charge is made except on Saturday when all admissions are free.

Public tours are offered every Wednesday, Saturday and Sunday at 2 p.m. and group tours including tours for the visually impaired may be arranged through the Education Department two weeks in advance.

The museum is easily reached by taking Exit 2 from I-71, following signs to nearby Eden Park and Art Museum Drive. Parking is free.

Question: What must I do to be saved?

Answer: According to the Bible, one must hear, Romans 10:17, believe, Hebrews 11:6, repent, Acts 17:30, confess, Romans 10:9, 10 and be baptized for the forgiveness of sins. This is according to the plan of God. Please take time to check all these scriptures.

SUNDAY: Bible Study 10 A.M. — Worship 11 A.M. — Worship 6 P.M.
WEDNESDAY: Bible Study 7 P.M.

Paris Kiwanis to hold tennis classic July 15-17

The Paris Kiwanis Club Tenth Open Singles Tennis Classic will be held July 15 at 6 p.m., July 16 at 9 a.m., and July 17 at 9 a.m. Men and women's A, B and C Singles will compete.

Entry deadline is July 13. Contact Russ Day, 379 Stoner Avenue, Paris, Ky. 40311; phone 987-7520. Entry fee is $4.

Doubles tournament will be held Aug. 5, 6 and 7.

Make plans now for Bible School at Little Rock

The Little Rock Christian Church will conduct two Vacation Bible Schools July 11-15. The elementary school, 9:00-11:30 a.m., is for ages two years through sixth grade. A night school, 7:00 p.m.-9:00 p.m., will be for junior and senior high youth.

The Little Rock Christian Church shares this school with all interested. There is no charge and it would be helpful if pupils would register in advance so that sufficient materials will be on hand for each student. Workbooks, crafts, music, visuals, lessons and refreshments will be just a few of the special programs offered. To register call 606-986-4265, 355-4488 or 563-4494.

The Little Rock Christian Church is located on Highway #627, 12 miles from Paris. The mailing address is Route 3, Box 111, Paris, Ky. 40361. School directors are Elizabeth Wasson and Sandy Elliott.

Turpin-Smalley wedding is July 16

Miss Lorna Gail Turpin and Bobby Smalley have selected Saturday, July 16, as their wedding date.

The ceremony will be held at 7 p.m. at the home of the bride at Blue Licks.

In case of rain, the wedding will be held at the Blue Licks Christian Church.

Admission prices listed for the Kentucky State Fair

Admission prices to the 1983 Kentucky State Fair are as follows: Adults, $5; children 12 or under $1; senior citizens $1; carload hours $3 per vehicle (Aug. 11, 12 and 15-20); parking $1 per vehicle all day, every day.

V.F.W. Auxiliary to check bikes

The V.F.W. Ladies Auxiliary and Junior Girls Unit will sponsor a Lite-A-Bike in front of the bandstand on Main Street Saturday, July 9, 13-1 p.m.

Children should bring their bicycles to have safety tape put on them.

Birth

LIVINGOOD

Mr. and Mrs. Kenneth Livingood of Carlisle announce the birth of a son, Kevin Ray Livingood, Saturday, June 25, 1983 at the Harrison Memorial Hospital, Cynthiana. He weighed seven pounds and two ounces.

Maternal grandparents are Mr. and Mrs. E.C. Davis, Nicholas County.

Paternal grandparents are Mr. and Mrs. Grover Livingood, Nicholas County.

Two from Carlisle on Dean's List

The various colleges of the University of Kentucky have announced their dean's list for the 1983 spring semester. To be named on this list, a student must have attained a high academic standing based on a 4.0 grading system.

The students from Nicholas County are Gregory Lee Wills, Business and Economics, and Kathryn G. Conley, Communications.

Civil War Society to meet July 15

The regular bimonthly meeting of the Madison County Civil War Round Table will be held Friday, July 15, at 7:15 p.m. in the Oak Room of the Boone Tavern at Berea.

After dinner Colonel Donald H. Smith, Deputy Grand Master of the Grand Encampment of Knights Templar, U.S.A. and an authority on the history of freemasonry, will present a talk on "Unbroken Bonds: Freemasonry During the Civil War." The meeting is open to anyone, but it is necessary to call Charles Hay at 622-2820 or 624-2760 for dinner reservations.

Miss Rhonda Baird

Wedding set for July 23

Mr. and Mrs. Rex Baird of Ines, Ky. announce the engagement and forthcoming marriage of their daughter, Rhonda Diane, to Rick Allen Mattox, son of Mrs. Nancye Carolyn Mattox and Robert Mattox of Carlisle.

Miss Baird and Mr. Mattox are employed by the Martin County School Systems.

The wedding will be an event of Saturday, July 23, 1:30 p.m., at the First Baptist Church in Ines.

All relatives and friends of the couple are invited to attend.

Engagement announced

Miss Tammy Roser

Mr. and Mrs. Raymond D. Roser of Route 4, Carlisle, announce the engagement of their daughter, Tammy Denise, to Harold D. Shannon, son of Mr. and Mrs. W.H. Shannon of Newtown, Ky.

Miss Roser is a graduate of Nicholas County High School and is now attending Morehead State University.

Mr. Shannon is a graduate of Scott County High School and is a self-employed farmer in Bourbon County.

The wedding will take place Saturday, July 23, 6:00 p.m., at the First Christian Church on Catherine Street in Carlisle, with a reception following.

All friends and relatives are invited to attend.

Miss Villaflor is on Dean's List

In recognition of outstanding scholarship, Miss Ruby Lynn Villaflor, daughter of Dr. and Mrs. Oslan Villaflor of Carlisle, has been named to the Dean's List for the spring 1983 semester at Syracuse University School of Nursing, Syracuse, New York.

She is also recipient of the New York State Regents Scholarship in the state of New York.

Kay's Kitchen

By Kay Fisher

With so many fresh fruits in the stores now, it is time to enjoy them while they are at their peak. You may eat them "as is," or make into a delicious dessert. Take your choice: peaches, strawberries, cherries, bananas, rhubarb, grapes, melon balls, cantaloupe, citrus fruits and kiwi, just to name a few. All may be served plain with cheese or made into one of the following desserts.

FRESH FRUIT COMPOTE

1 cup sugar
¼ cup water
¼ teaspoon grated fresh lemon rind
2 tablespoons brandy, or if you prefer, 1 teaspoon vanilla
1 cup each of fruits in season (strawberries, honeydew melon balls, seedless green grapes, sliced bananas, etc.)

Mix first four ingredients in small saucepan and bring to a boil. Reduce heat and simmer for 10 minutes. Chill. Divide mixed fruit among six dessert dishes. Pour chilled syrup over fruit. Garnish with fresh mint sprigs.

BLACKBERRY FLUMMERY

1 quart blackberries
½ cup sugar, or to taste
1 cup water
1 tablespoon cornstarch
1 tablespoon lemon juice
½ sponge cake, cut in strips, or use ladyfingers

Wash and pick over berries, add sugar and water, and heat to boiling. Make a thin paste of cornstarch and 2 additional tablespoons water; add slowly to blackberries and cook 15 minutes, stirring constantly until thickened. Add lemon juice and chill. Taste for sweetness. Serve in sherbet glasses lined with cake or ladyfingers.

You may top with whipped topping or whipped cream.

CHERRIES MERINGUE

1 quart tart cherries
1 cup sugar, or to taste
¼ teaspoon salt
1 tablespoon flour
1/8 teaspoon almond extract
2 egg whites
¼ cup powdered sugar
¼ teaspoon vanilla

Wash and pit cherries. Mix sugar, salt, flour and flavoring; add to cherries and mix well. Turn into deep, nine-inch pie plate, cover and bake in 350 degree oven for 30 minutes, or until fruit is tender. Beat egg whites until stiff; add sugar gradually, beating until blended. Add flavoring. Drop in six mounds on cherries and bake 15 minutes longer, or until meringue is lightly browned.

PINEAPPLE-STRAWBERRY DESSERT

1 cup diced fresh pineapple
2 cups hulled strawberries
8 marshmallows, or equivalent in miniature marshmallows
½ cup sugar

Combine all ingredients; add more sugar if desired, and chill. Approximately six servings.

RASPBERRY DELIGHT

Quarter ½ pound marshmallows; add 1½ cups fresh raspberries and 2 tablespoons lemon juice and chill. Just before serving fold in 1 cup heavy cream, whipped; serve in sherbet glasses and sprinkle with fresh grated coconut.

FRUIT CUP

3 ripe pears
1 small melon
2 peaches
1 pint lemon ice
Carbonated lemon-lime drink, or sparkling white wine

Pare and dice fruit and place in champagne glasses; top with lemon ice. Fill glasses with beverage and serve immediately.

KIWI CRUSH

1 or 2 kiwi fruit, peeled and sliced
1 banana, peeled and sliced
1 papaya
¼ cup orange juice
Crushed ice

Kiwi fruit slices and banana for garnish

Place all ingredients in a blender and beat until frothy. Serve in stem glasses over ice. Garnish with slices of fruit on picks.

CRUNCHY BAKED NECTARINES

3 small fresh nectarines
½ cup butter
½ cup brown sugar, packed
3 tablespoons flour
1 cup walnuts, chopped

Halve nectarines; discard pits. Place cut sides up in a nine-inch pie plate. Combine butter, sugar, flour and walnuts in small saucepan. Bring to a boil over medium heat, stirring often. Mound nut mixture on nectarine halves. Bake in 350 degree oven for 25 minutes, or until tender. Serve topped with ice cream.

— Social Pictures —

There will be a $5.00 charge for all Wedding, Anniversary, Engagement, Reunion, and Family Generation pictures, and all other pictures social in nature.

Wedding pictures MUST be submitted to The Carlisle Mercury within three weeks following the wedding. When calculating the weeks, be sure to note The Mercury's publication dates. Wedding pictures arriving after three weeks (publication dates) will not be used.

It is suggested that whenever possible, the picture be taken before the wedding so it will be available to run in The Mercury the week following the wedding.

All pictures must be in the office by 11:00 A.M. on the Monday preceding publication.

New lawn furniture

Miss Teen Eads, left, and Mrs. Frank Henry are enjoying the new lawn furniture at Johnson-Mathers Nursing Home which the Carlisle Community Woman's Club recently donated. The black wrought iron chairs and table greatly enhance the front yard of the nursing home. — Mercury photo.

Plan now for camp next summer

It's summer again and youngsters across the nation are heading off to camp where they will swim, hike and do other fun-in-the-sun things.

At Morehead State University, a different kind of camp is being held this summer, one that keeps youngsters inside most of the day. It's a microcomputer camp for students entering grades seven through 12.

During the one-week camps, participants will learn to program PET's brand microcomputers in the BASIC language. The program writing skills they learn can then be used with any brand computer.

Six camps with 24 students each are scheduled and, because of the demand, another camp may be added.

This is the third year MSU has held computer camps. Since the first year, the number of participants has increased from 42 to nearly 150. This year, 150 applications were received after the camps were filled.

"We could run two camps each week all summer if we had more staffers and computers," says Louise Louder, secretary, Department of Mathematical Sciences at MSU, who is responsible for recruting students for the camps. "That's our plans for next year."

An additional 26 computers have been ordered and should arrive some time this summer.

There are no special requirements for computer-campers and a knowledge of computers is not necessary.

"They start at the beginning, right from turning on the computer," Louder explained. "The first day they learn all the basics, then start writing simple programs."

One of the programs students wrote last year was how to make a peanut butter sandwich. After the information was put into the computer, the instructions were printed and followed with real peanut butter and bread.

"When they made the sandwich, they could see how important it is to give the computer all the information it needs," explains Louder. "For instance, instead of just saying 'Spread the peanut butter,' you have to say 'Spread the peanut butter on the bread' or you may end up with it on your hand."

Participants spend six hours each day working with computers, including as many hours as college students attend class during a semester-long computer course.

"These kids are so eager to work that they are at the door at 9 a.m. ready to go," says Louder. "We have had very few problems keeping them interested."

Because of the demand, Louder suggests that anyone interested in attending one of next summer's camps apply in Jan. 1984.

The weeks of June 12-17, 19-24 and July 10-15 are for students with no experience in programming and who will enter grades 7, 8 or 9 in the fall. The weeks of June 26-July 1 and July 17-22 are for beginners entering grades 10, 11 and 12.

The week of July 24-29 is limited to students in grades 7 through 12 with programming experience and knowledge of BASIC language, and participants of previous computer camps.

For more information about MSU's microcomputer camps, contact Louise Louder at MSU, UPO 739, Morehead, KY 40351. The telephone number is 606-783-2530.

Elementary school children should receive science instruction

Elementary school children should receive science instruction in early grades and their teachers should have more on-hands science education experience according to recommendations recently submitted to state Superintendent of Public Instruction Raymond Barber by the Science Advisory Council.

The 13-member council, which was created in October 1982 by Barber, has developed four recommendations aimed at improving the quality of science instruction in Kentucky's classrooms.

The advisory group concluded that science teachers are apt to teach in the manner in which they have learned themselves, more hands-on instruction should take place during teaching preparation courses.

The council has therefore recommended that a minimum of 12 semester hours of general studies science be required at the undergraduate level in all programs preparing elementary teachers, and that the required courses include "hands-on" laboratory courses in physics and biology, in addition to three hours each of either chemistry or earth science, and one elective science.

The council noted that most teacher education institutions already require 12 semester hours of general studies science, and that its recommendation would affect the nature and content of courses more than the number of credits required.

According to Frank Howard, science consultant with the state Education Department, this recommendation has been sent to the Council on Teacher Education and Certification for review.

Other recommendations made by the advisory council include establishing 12 regional science resource teachers throughout the state to work directly with instruction and to assist the state science consultant. This, the council concluded, would provide "immediate and knowledgeable support to science programs in individual schools."

Regional resource teachers would be required to have a Masters degree, three years' successful teaching experience, and experience with and knowledge about science programs. In addition, they must be certified in either elementary education with a minimum of 21 semester hours of science or in secondary education with a major in science or area of concentration in science or mathematics.

The council also recommended that the guidelines for local district extended employment provide a category for science teachers, adding that presently good science teachers give their own time for a number of activities that are currently covered under extended employment guidelines.

The council's fourth recommendation to the superintendent called for the state Department of Education to provide a science consultant who exclusively works to provide leadership and coordination of science activities.

The council expressed concern that during the past two years, the department's science consultant has also had other responsibilities, including administering the math and science incentive loan program directed at attracting competent teachers in those shortage areas. While this is also an important responsibility, the council believes that the consultant should work to accomplish tasks directly related to upgrading the quality of science education.

Superintendent Barber has already acted upon this recommendation by reassigning the loan program responsibilities to another department staff member.

In addition to the four recommendations, the council directed its chairwoman Anna Neal, Fayette County's science supervisor, to develop a pilot project in her county's schools which would establish closer ties between science teachers, business and industry. The plan could then be extended to other areas of the state.

The Science Advisory Council represents teachers, industry, science educators, academic disciplines of science and local district administrators. Barber appointed the council in an effort to act on the crisis in mathematics and science education. The council, which has been appointed through 1983, was charged with making a general assessment of science education and with recommending which items should be given priority by the Kentucky Department of Education.

Berea Festival dates are set

A woodworking symposium, two days of Appalachian humor, and the three day Berea Craft Festival will all take place in one busy Berea week.

"Ventures in Wood," July 14-15, is an intense woodworking seminar/workshop sponsored by the Berea College Industrial Arts Department. Dale Nish, Rude Osolnik, and other master woodworkers, will lead the classes. Dormitory housing is available. Contact Dr. James Hall, CPO 2213, Berea College, Berea, KY 40404, phone 606-986-9341.

New for 1983 is "Appalachian Laughter: A Festival of Appalachian Humor," set for July 15 and 16 under the direction of Loyal Jones and poet/songwriter Billy Edd Wheeler. The sponsor is Berea College's Appalachian Center, CPO 2336, Berea, KY 40404.

The week ends with the second annual Berea Craft Festival, July 15-17 in Indian Fort Theater. Craftspeople from a dozen states will gather to display and sell selected handcrafted wares, and regional food and music add to the festive air. Hours are 10 a.m. to 6 p.m. Friday through Sunday. Admission is $2 for adults and 50 cents for children. For details write Berea Craft Festival, PO Box 528, Berea, KY 40403.

Two more Berea festivals come later in the year. The McLain Family Band Festival is Aug. 12-14, and the Old Timey Music Festival will be Oct. 27-30.

Berea's many fine craft shops and studios are open year round. Tours of the Berea College Student Craft Industry on the crisis in mathematics and science education. The council, which has been appointed through 1983, was charged with making a general assessment of science education and with recommending which items should be given priority by the Kentucky Department of Education.
