

READY FOR OUR TOUGHEST JOB!

Getting Results—Jobs.

Shortly after Harvey Sloane became Mayor of Louisville for the second time, the Standard Gravure printing company made known its intention to move its plant, and 800 jobs, to Tennessee. The decision had been made but Harvey Sloane stopped in anyway. He sat down face-to-face with management and face-to-face with labor. When Harvey Sloane finished, 800 Kentucky jobs were saved.

When Harvey Sloane Says No—He Means It.

When it comes to public employees illegally on strike, there's nobody tougher than Harvey Sloane. When the health and safety of Louisville was threatened by an illegal wildcat strike of sanitation workers, Harvey Sloane took charge and replaced them. And that ended that.

Taking Charge—The Tornado.

When a crisis hits, Kentucky must have a Governor who's been through it and knows what to do—that's Harvey Sloane. After the killer tornado had ripped through Louisville, Harvey Sloane took charge. He coordinated the clean-up efforts, restored the neighborhoods and kept working until the job got done.

The Second Toughest Job.

Harvey Sloane today holds the second toughest job in Kentucky—he's Mayor of Louisville. In fact, Mayor Sloane was the first person in more than 50 years to be re-elected to a second full term, winning with more than 65% of the vote. The reason? He gets results. While the unemployment rate was going up all over Kentucky in 1982, it was going down in Louisville. The result of a business, labor and government partnership that creates new jobs.

He Cares—And It Shows.

As tough and decisive as Mayor Sloane can be, he's still Dr. Sloane—a person who cares deeply about people. Long after he was elected, Harvey Sloane kept walking the neighborhoods to stay in touch with the people. And his commitment to build the finest Emergency Medical Service in the country has saved thousands of lives in Louisville. Harvey Sloane doesn't have to say he cares, his record shows it. Harvey Sloane believes all Kentuckians should have access to Emergency Medical Service.
