SELECTIVE SERVICE
HAS REGISTERED
11 MILLION MEN

As of November 1, 11 million men have registered with the Selective Service System.

Registration compliance is currently at 98.5 percent for the draft-eligible population — those men born in 1960 through 1963.

Federal benefits are now being linked to the registration requirement. Men requesting federal student aid and job-training benefits must certify that they have registered. Men born in 1960 and later years are required to register at any U.S. Post Office within a month of their 18th birthday.

Registration is a simple process. A man goes to any U.S. Post Office and fills out a form which asks only for his name, address, telephone number, social security number and date of birth. Some sort of identification is required.

For further information contact Pierce W. Hamblin, Box 27179, Lexington 40522. Hamblin noted that Kentucky has an overall registration rate of 97 percent for all 18 year olds. For 18 year olds in the 1965 age group, the state has a 96 percent registration rate.

The above-described real property will be sold as a whole, upon a credit of thirty (30) days, with privilege of the Purchaser to pay all cash on the day of sale. Any Purchaser, except one of the parties to this action, shall be required to make a cash deposit of ten (10%) percent of the gross sale price at the time of sale. If the Purchaser does not elect to pay all cash on the day of sale, he must execute a purchase money bond, payable to, and surety thereon approved by, the Special Commissioner, said purchase money bond to be a lien against said real property, and which bond may be prepaid at any time prior to maturity by paying the principal amount thereof and accrued interest to the date of payment.

All ad valorem real property taxes due on the above described property for the year 1978 thru 1983 shall be paid from proceeds of the sale.

Following the sale of said property, the Special Commissioner shall promptly report same to the Court, and said report shall be held over for a period of ten (10) days for confirmation or exceptions. Anyone desiring to object or take exception to the sale shall do so by that time or be forever barred.

Farm credit task force is approved

The Senate Agriculture Committee has approved a proposal offered by Senator Walter (Dee) Huddleston, calling on the President to establish a 13 member special task force on agricultural credit that would develop policy recommendations designed to ensure the availability of credit, at reasonable rates of interest, to farmers.

Huddleston said the task force should be structured like the special task force on Social Security.

"Unless steps are taken now to resolve the credit crisis that threatens many individual farmers, this situation will lead to increased foreclosures and further difficulties for agricultural lenders and farm-related businesses. A presidential task force is needed to help develop solutions," Huddleston said.

"The enactment of legislation to provide temporary emergency assistance to our nation's farmers is one of my highest priorities. Beyond that, a presidential task force to study agricultural credit problems and recommend solutions is needed if Congress is to develop responsible long-term agricultural credit policies," Huddleston said.

Huddleston cited a survey conducted by the Independent Bankers Association of America as evidence of the seriousness of the problem. The survey showed that bankers expect over 17 percent of their existing farm loan borrowers will be unable to service their debt" in 1984.

Huddleston also said that losses to Farm Credit System lenders during the past three years had exceeded their combined losses for the preceding 47 years and that the Governor of the Farm Credit Administration had advised Congress that the System would face more difficulty in 1984 than in 1983.
