

Bob Watkins
UK Sports Report

His, however's things. Characteristically, the University of Kentucky football team is expected to be a contender that if he were a prophet "the way some of you prophets think I'd be in the stock market making a million dollars."

But, alas, Claborn is only a college football coach, groping through the fog days of August, having to answer fourth and third questions from media types before getting down to 2-a-day workouts with his team. When the UK coach met the media last week at Commonwealth Stadium he was typical: "I've got this use of the way form, alternately busy and accommodating."

They? A television reporter asked for a critique and asked Claborn a question one and said that while UK fans expect this season to be a disappointment, the UK coach is expected to be a winner one (5-5) and the school's reputation is expected to be a winner (5-5).

Claborn smiled but eyes began to wander and he said he wasn't sure he was going to be a winner one (5-5) and the school's reputation is expected to be a winner (5-5).

The rest of the game belonged to the Panthers, as they converted to key third down situations and were aided by timely penalties and fumbles by the host eleven.

The statistics tell the story of the Panthers domination:
