Harrison Co. RECC reports coldest Dec. 25 on record

December 1983 was the fourth coldest December since record keeping began in 1881. Dec. 25 was the coldest Christmas ever. Those cold days put more of a demand on Harrison Rural Electric Cooperative to supply members with enough electricity to keep their homes warm. A new peak service set on Christmas Day, a percent increase over the previous record set by East Kentucky Power Cooperative in late January of 1982.

New reservations

Continued from page 1
Answers to questions they may have concerning their reservations. The new system eliminates the old reservation system which was done manually at each park's front desk.
"This new reservations system is yet another part of our efforts to enhance and increase our tourism industry in Kentucky," Governor Collins stated. "We have the finest system of state resort parks in the nation, and the full-time number will make it much easier for the public to make reservations to questions they may have concerning their reservations. The new system eliminates the old reservation system which was done manually at each park's front desk."
