LOW-COST GAS PURCHASE APPROVED; WOULD AID LOW-INCOME CUSTOMERS
The state Public Service Commission has approved a plan to help low-income Columbia Gas customers pay winter heating bills.
The Commission has authorized Columbia Gas to purchase low-cost natural gas at market prices from Citizens Energy Corp., a non-profit Boston-based firm headed by Joseph P. Kennedy II, son of the late Sen. Robert F. Kennedy.
Under the agreement, Citizens Energy will purchase natural gas below market price from various suppliers. Columbia Gas will buy the low-cost gas from Citizens Energy at prices charged Columbia Gas by its supplier, Columbia Transmission. The difference will be placed in an emergency assistance fund to help Columbia's residential customers who do not qualify for or have exhausted other assistance sources.
THE EMERGENCY assistance fund will be administered by Winter Care, a Lexington service agency. Based on current gas prices, Commission staff estimate about $65,000 will be available for the fund to assist between 350 and 350 Columbia customers. A maximum payment of $150 will be made to each household, according to the plan.

Gladys Baxter (now Scott) vs. Jerry Wayne Frederick, motion, order entered.
James Carson, motion, order entered.
Joe Ballard, motion, summons issued; returnable Aug. 16, 1984 at 9 a.m.
James Allen Stamper, motion, order entered.

ILLINOIS TO TAKE LOW-LEVEL WASTE FROM KENTUCKY
The path has been cleared for Kentucky to join Illinois in a two-state compact for the disposal of low-level radioactive wastes, state Sen. Ed Ford said last week during a news conference.
The Illinois General Assembly has overwhelmingly passed legislation forming the Central Midwest Interstate Compact on Low-level Radioactive Waste. The compact would consist of Illinois and Kentucky solely, with Illinois agreeing to serve as the host state for the waste disposal site, Ford said.
Kentucky, which produces relatively little radioactive waste, will not have to build a disposal facility or receive waste from outside its borders.
Ford, D-Cynthiana, said recognition of the sacrifices Kentucky has already made, through the acceptance of waste generated from all over the country at the decommissioned Maxey Flats disposal site in Fleming County, is the key feature of the Illinois legislation.
"Illinois is the only state that has publicly acknowledged that Kentucky has paid its dues because of Maxey Flats," Ford said, adding that Kentucky was "exempted forever" from serving as a host state under the bill.

Your neighbors' house is similar to yours. Why is their electric bill lower?

Because of the Power of Choice, the difference can be in how carefully they BUY electricity.
Every time you flip a switch, you're choosing to buy a little electricity. And all of those choices add up to your electric bill.
Today, you have choices that help you get more out of the electricity you buy.
The New Appliance Choice.
Suppose you were choosing between two refrigerators, same size, same features.
The less efficient one may be cheaper to buy. But the more efficient choice saves money in operating costs — year after year.
When choosing a new appliance, check the Energy Guide labels and compare operating efficiencies.
The Heating and Cooling Choice.
Because heating and cooling equipment are such big energy users, a wise choice can really pay off. In summer, a heat pump is an efficient central air conditioner. In winter, it heats the house — delivering two to three units of heat for every unit of energy it uses.
Whether you're looking for a new appliance or deciding on a home cooling and heating system, a wise choice can save you money.
Electricity. It's the Power of Choice.
