He missed his own wedding

Dr. Zapatka (Barry Myers) and Prof. Gruber (Keith Lyons) trick Charlie Hackle (Cliff Ramsey) into drinking an experimental super-potion in last Friday night's comedy ***Suitable For Hanging***. The potion caused a memory lapse which resulted in Charlie missing his own wedding. The play was staged by the Theater Arts classes under the direction of Mrs. Debbie Vice. — Photo submitted.

Grain and livestock surveys underway

Many Kentucky farmers will be contacted during the next several weeks by the Kentucky Crop and Livestock Reporting Service. Dave Williamson, statistician in charge, says farmers will be contacted by mail, personal interview and telephone.

The contacted farmers are in a statistically selected sample and the data received will be used to estimate 1984 planted acreage, mid-year grain stocks and livestock inventory levels.

Spring 1984 has been wet, cold and unfavorable for farming. Farmers very much need a good year following the drought of 1983. February planting intentions showed a sharp increase in corn acres and this survey will indicate if farmers are following those intentions.

These surveys are voluntary, but very necessary to have accurate data on which to base production and marketing decisions.

Major reports based on these surveys and their published dates are: Grain stocks and hog and pig numbers, June 21; 1984 spring planted acreage, June 28; cattle numbers, July 26 and farm numbers, Aug. 10.

Williamson expressed thanks to the farmers who assist in these surveys. To receive the results, contact, the Crop and Livestock Reporting Service, P.O. Box 1120, Louisville, Ky. 40201.

INSURANCE PREMIUM CUT FOR SERVICEMEN

A reduction in premium costs for Servicemen's Group Life Insurance (SGLI) coverage will result in some 2 million persons sharing a savings of more than $47 million, the Veterans Administration has announced. The reduced premiums are effective July 1.

The monthly premium for maximum SGLI coverage of $35,000 will be $3.65. Presently it is $4.06. The decrease will result in an annual savings of $33.2 million for the 1.6 million SGLI members and $14.2 million for ready reservists with full-time coverage.

A Message To The Voters

I believe that as a candidate for representative, I should tell the people where I stand on certain issues. In fact, I believe that all candidates for Representative should be willing to take a stand on issues that are of interest to the citizens of the 74th Legislative District.

For the past four years there has been a great controversy over the jails of the State of Kentucky. The incumbent Representative was chairman of the committee which wrote the current jail legislation act. It is my belief that jails should be safe, secure, and should be fit for the human habitation, jail I do not believe they should be country clubs, nor do I believe that prisoners should be coddled at great expense to the taxpayers. I am not fully familiar with the cost of the renovation of the Montgomery County Jail, but it has been reported to me that there has been nearly $60,000 spent on the building, and now they want to vacate it and build a regional jail at a cost of millions. The Bath County jail was closed due to the jail legislation and is about a five-minute drive from the Montgomery County jail. The county jailer and sheriff of Bath County for a period of 12 years and was in this jail frequently. The jailers kept the place clean, prisoners were well fed and well cared for, but under the new jail legislation, it was closed. The cost of renovation is going to be between $30,000 and $35,000 with the state requiring a hood over a cook stove that I understand will cost $1,500. To me at least, it does not make sense that you would have to have a $1,500 hood over a $250. cook stove. It is time that this problem was approached with common sense and in such a manner that the taxpayers can afford it.

Plans are proposed to establish a regional jail in Montgomery County to serve Bath, Menifee, Montgomery and Powell counties which will serve the dual purpose for any of the four counties, but at great additional cost to the taxpayers. And, in addition we will have to continue to operate our present jails as a holdover. Due to the overcrowding of the state penitentiaries at Eddyville and LaGrange, this facility will soon become a regional penitentiary and no one wants such a facility in his county.

The legislature prior to this one changed the Primary date from May to August and I stated it would remain there permanently. As all the people know, when it appeared that some action they would have to take would not be popular with the people, the present legislature changed the law back to May. It would appear that either the legislature was wrong when they changed it to August, or it was wrong when it was changed back to May. My opponent voted for both bills. It is my opinion that it was a selfish act on behalf of the incumbent legislature when they changed the law in order to discourage their opposition. You and I both know this was the reason that this was done.

The legislators have voted themselves tremendous pensions after 10 years of service. In fact, some legislators will be eligible for a pension over $27,500. I can see where an employee who works a lifetime is entitled to a decent pension but legislators only meet 60 days every two years. Compare this with your own Social Security checks that you paid into for a lifetime or a teachers retirement that they paid into for 30 to 40 years and probably only draw $400 to $600 per month. This is not justice and this should not be permitted.

There has been gross discussion in the past legislature about merit raises for school teachers. It is my opinion that there is no fair way to pick two or three teachers out of any system and say these two or three are entitled to a merit raise and the rest of you are not. If the merit raise plan was passed, I believe that would put the school teachers back into politics as they were some 35 or 40 years ago. There is a profession and they should not be subject to the whim of or revenge of local politicians. If there is money available for merit raises, I say let's raise all the teachers according to their training and their degrees.

The present legislature failed to cooperate with the governor and pass a comprehension legislative program which undoubtedly will require the calling of a special session at great expense to the taxpayers. It is time for a change and time to send legislators responsive to the people to Frankfort.

When nominated and elected I pledge to serve all the people of the three counties.

I sincerely solicit the vote and help of each citizen of the 74th Legislative District consisting of Bath, Montgomery and Nicholas Counties.

I am an

Rex R. Crouch

Being the same property conveyed to Fred Jones and Jean Jones, by deed dated March 13, 1969, now of record in Deed Book 64, page 59, in the Nicholas County Clerk's Office.

The sale of the above described property, the purchase price shall be payable as follows:

Twenty percent (20%) on day of sale, the balance on a credit of sixty (60) days for which the purchaser shall be required to execute bond, with good security, dated as of the date of the sale and bearing interest at the rate of twelve (12%) percent per annum until paid, same to have the force and effect of a mortgage upon which the purchaser may issue if same is not paid at maturity. As security for the purchase price the Special Commissioner will retain a lien against the real estate to secure payment of the balance of the purchase money. The purchaser shall have the privilege of paying cash upon approval of sale by the court.

All unpaid taxes and assessments against said real estate for the year 1983 and thereafter shall be paid by the purchasers.

Following the sale of the above described property, the Special Commissioner shall report his actions to the Court. Said report shall be held over for a period of ten days for confirmation or exception, and anyone desiring to object or except to the sale shall do so by that time or be barred forever.

s/Charles M. Cox,
Special Commissioner

Senators criticize burley fee assessment increase

U.S. Senators Walter (Dee) Huddleston and Wendell Ford have cited the announced increase in the Burley No-Net-Cost assessment fee as further evidence that President Reagan should impose emergency tobacco import quotas.

Ford said he was "disheartened" by the U.S. Department of Agriculture's May 17 decision to raise the fee, from five cents to nine cents per pound.

"This nearly doubles the amount burley farmers will have to pay to insure the integrity of the tobacco program," Ford said. He criticized the USDA for recognizing through this action that imports are a threat to the tobacco program, while refusing to act to limit imports.

"The surge in imports combined with the growing tobacco stockpile at home has caused the incomes of over 100,000 Kentucky farm families to drop sharply," Huddleston said. "The Administration must act promptly to curb imports to prevent further erosion in farm income."

"For the Secretary of Agriculture to impose a higher assessment without any indication he will recommend that the President impose quotas is very disappointing," Huddleston said.

Under Section 22 of the Agricultural Adjustment Act, the President could limit the amount of foreign tobacco entering the domestic market. Since 1979 imports of unmanufactured tobacco have increased by 141 percent, and imports of flue-cured and burley have increased by 350 percent. At the same time, loan stocks (farmer-held reserves of tobacco that failed to find a home in the marketplace) have been increasing at an alarming rate.

The senators mentioned that today's increase in the assessment fee is the second since 1982 when the fee was first imposed at one cent per pound.

Black shank threat

Black shank cost Kentucky tobacco farmers $35 million last year. Recent weather indicates the fungus could be a costly threat again this year.

Many fields along rivers have become contaminated by flooding. And plant beds on farms with a history of black shank probably have become contaminated because of extensive water and soil movement, according to Dr. William Nesmith, Extension plant pathologist at the University of Kentucky.

"Growers should aggressively approach a black shank preventative program on farms with a history of the disease or where the potential for spread is great," said the specialist.

THE BEST protection against black shank is to plant in sites free of the pathogen. However, Nesmith says if tobacco must be planted where the pathogen exists, then a resistant variety of tobacco and Ridomil should be used.

He recommends using Ridomil at the rate of either two pounds product or one pound preplant, plus another half pound at layby.

"Using Ridomil with a susceptible variety usually will not provide adequate protection against black shank under medium or high disease pressure," said Nesmith.

However, he said significant protection against black shank under low disease pressure can be obtained with just Ridomil on a susceptible variety, but the procedure is risky.

Growers obtaining transplants from neighbors should be especially careful, according to the specialist.

Ledford family reunion on KET

The half-hour documentary was made at the Lancaster home of Burnam and Addie Ledford in 1981. Burnam died in February 1983, three months before his 107th birthday. Addie will be 100 next January.

Nine of their 13 children are still living, seven of them in Kentucky.

Before you Vote May 29th, remember these things:

Help yourself and your county. Vote for CARTMELL LESTER for STATE REPRESENTATIVE of the 74TH DISTRICT.

We need to expect more from our Representative than a small section of road built every ten years.

My opponent is running on experience, but can we afford this kind of experience?

CLOSING OF OUR JAILS: Costing Nicholas County $203,3008.864 in nine (9) months to transport prisoners to Maysville or Paris and sometimes having to bring them back because they had no room. The fact remains our jails stay closed.

VOTING TO PASS THE (GREED BILL) HOUSE BILL 103. By the passage of this bill legislators granted themselves a significant pay increase and will give themselves a maximum of $27,500 per year for life retirement for serving a few years in the Kentucky House. This bill needs repealed.

VOTING ON SENATE BILL 221: This bill would raise the legal Ceiling on Credit Cards interest rate to 21% from 18% and a $20.00 fee for Credit Card Customers. Another example of taking money from the pockets of the working people.

SALES TAX on used cars need to be revised. Paying tax on car worth $500.00 while the book price may be $2000.00. This takes more off of the working person. Can we afford this kind of Experience.

WE NEED HELP for our farmers in this District. Tobacco our main cash crop is in big trouble and we may need to go to alternative crops to maintain the cash income to keep them going. Poultry, Fruit, Vegetables and Berry crops are a few that can be used on small farms and we may need a tax break to help these farmers till they are able to put these crops and receive benefits from.

WE NEED HELP from the Representative in obtaining new Industry Here in our Counties. Industry has gone elsewhere and our children must move off to other towns because there are no jobs for them here. We must have a Representative who has the interest of our people at heart.

OUR EDUCATION SYSTEM needs help with our State being ranked 50th in percent of high school graduates. Before anyone thinks about raising taxes for better schools, we should study what we already have and how we can use the finances we have.

OUR SENIOR CITIZENS and the very young that cannot help themselves must be at the top of the list for any Representative. I have very deep feelings for them and will do everything to help them have a better way of life.

WHEN YOU VOTE ON MAY 29TH I want you, the voters, to know I have tried to see and talk to as many people as I could but with the change of the primary back to May by the Legislators, it did not give me enough time to see everyone. I am asking you, the voter, to help me put a Representative in Office who will serve you the people of the 74th District.

I will be available everyday I am in office, not just while the Legislation is in session.

Vote Cartmell Lester Representative of 74th District.

Political Ad paid for by Candidate.

Lester
For Representative 74th District
