MILEAGE RATE FOR BUSINESS USE OF CAR STAYS SAME

The Internal Revenue Service has said that the standard mileage rate for cars used in business in 1984 will remain at 20.5 cents a mile -- the same as in 1983.

The 20.5-cent rate is for the first 15,000 miles of business use of a car that is not fully depreciated. The rates for business use of a car that is not fully depreciated after the first 15,000 miles and for all business use of a car that is fully depreciated are also the same as in 1983 -- 11 cents a mile. For charitable, medical and moving expenses the rate used in computing deductions for 1984 will stay nine cents a mile, as in 1983.

The IRS said taxpayers can deduct either the business standard mileage rate or actual expenses for the business use of a car. In addition to the standard mileage rate, taxpayers can deduct the business related portion of parking, tolls and interest on a car loan.

The 20.5-cent rate is also used by the General Services Administration to reimburse federal employees for official use of their personal cars.

CROP PRODUCTION, LIVESTOCK SURVEYS NOW UNDERWAY

Kentucky farmers are being contacted by mail and personal interview as the Kentucky Crop and Livestock Reporting Service conducts its year-end surveys. These surveys will measure 1984 crop production, fall seeded acreage of winter wheat, and end of the year livestock inventory numbers.

Dave Williamson, statistician in charge, urges farmer participation on these surveys to ensure accurate agricultural statistics and assure that your area is properly represented. Farmer responses are kept confidential and used only for county, state and national estimates.

Kentucky and U.S. estimates on fall seedings of wheat, and hog and pig numbers will be released on Dec. 20. Final 1984 crop production will be available Jan. 24 and the Jan. 1, 1985 cattle and calf inventory numbers will be released Jan. 30.

Copies of this information can be obtained by contacting the Kentucky Crop and Livestock Reporting Service, P.O. Box 1130, Louisville, Ky. 40201 or telephone 502-582-5293.

Estate Auction

Sat., Nov. 24 at 1:30 P.M.

Located one-half block off Broadway at 213 East Chestnut Street.

We have been authorized to sell the following property for the estate of the late Sid McIlvain.

HOUSE AND LOT: The house is a one and one-half story frame building with seven rooms and one bath including a large livingroom, and 2 or 3 bedrooms. Extras include hardwood floors, gas furnace, enclosed back porch, large covered front porch, storm doors and windows, and a storage building behind the house. The lot is approximately 70'X100' and has a nice garden spot. This property is within walking distance of stores and churches.

For more information contact the selling agents.

TERMS: 10% down day of sale. Balance due with the deed.

FmHA LOANS TO 4,586 IN KENTUCKY

The Farmers Home Administration assisted 4,586 farmers in Kentucky through farm loans during 1984 fiscal year, State Director Kendell L. Seaton reported.

The loans totalling $180 million, were made under programs to assist with farm ownership and operation, natural disaster, economic emergencies and soil and water projects, Seaton said.

"Most farmers never have it easy, but this has been a particularly difficult year for them," Seaton said. "The loan programs of the FmHA make it possible for many farmers who cannot get credit elsewhere to continue operating."

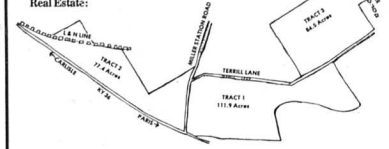
For the 12 months ending Sept. 30, the breakdown of loans in the state is as follows: Operating loans, 2,571 loans totalling $99,476,750; ownership loans, 364 loans totalling $28,564,050; disaster emergency loans, 3,595 loans totalling $74,340,950; economic emergency loans, 282 loans totalling $17,722,500 and soil and water loans, 67 loans totalling $500,160.

ABSOLUTE AUCTION

Saturday, Dec. 1, 1:30 P.M.

Located 2 miles west of Carlisle, 12 miles northeast of Paris at the corner of KY 36 and the Miller Station Road.

The heirs of W. Nathan Young Sr. and Louise P. Young will sell at Absolute Auction the following described Real Estate:



273.8 Acres, more or less, in 3 Tracts and as a Whole

TRACT 1: 111.9 acres, more or less - 5,507 lb. tobacco base. Improvements include a six room, one bath frame house, a seven bent tobacco barn, a 30'X40' feed barn, two corn cribs, a 10 stall farrowing barn w/automatic waterers, and a 40'X40' concrete feeding floor w/automatic waterers. The farm is watered by four ponds and a creek and has some new fence. Over one mile total frontage on KY 36, the Miller Station Road, and Terrill Lane.

TRACT 2: 77.4 acres, more or less - 3,458 lb. tobacco base. This tract contains six acres of good bottom land with the balance being good crop and pasture land. The farm is watered by a one-acre lake and a creek. This tract has approximately one mile of road frontage on KY 36 and approximately 1500' of frontage on the Miller Station Road. This property is located just outside the Carlisle city limits and is an excellent candidate for residential, commercial, or horse farm development. Public utilities within a short distance of the property. No improvements.

TRACT 3: 84.5 acres, more or less - 4,450 lb. tobacco base. Improvements include two (2) five bent tobacco barns - one used as a feed barn, a corn crib, and a log house. This tract is watered by two ponds and is all in good grass with the exception of the crop land which has been seeded. This is a true farmer's farm.

AUCTIONEER'S NOTE: These farms are well located and present an excellent opportunity to purchase some very good Nicholas County land near area horse and registered cattle farms. **DON'T MISS THIS SALE!** Come and buy at your price. For more information, contact the selling agents.

ORDER OF SALE: Auction to be held on Tract 1. Tracts 1 and 2 will be offered separately and then together. Tract 3 will be offered separately. Then, Tracts 1, 2, and 3 will be offered as a whole.

FARM EQUIPMENT: Also, following the sale of the real estate, we will sell the following: Ford tractor - 4 speed, 14' wagon, fert. spreader, manure loader, post hole auger, hay elevator, 5' rotary mower, grass harrow, metal watering vat, fence stretchers, feed trough, hand tools, approximately 20 rolls fodder, approximately 100 rolls hay - grass and clover, and more.

TERMS: 10 percent down day of sale. Balance due on or before March 1, 1985. Machinery and Hay. Cash.

'Top Ten' creators

Garfield's Top Ten is an intra-grade attendance incentive display created by Elaine Fryman, left, and Kim Eckler, NCH art students. The display is expected to stimulate a competitive spirit in homerooms to improve daily attendance. The homeroom with the highest monthly attendance percentage is recognized by use of a Garfield character. Mrs. Sharon Hatton's class led the first month with a percentage of 98.3. Greg Letcher's class won last month with a 97.8 percentage. Elementary students are competing in a similar project entitled Garfield's Top-Kats, according to Betty Conrad. — Photo submitted

MSU TO RAISE REQUIREMENTS FOR NEW STUDENTS

Starting in the fall of 1985, new students will need more than a high school diploma to be admitted to Morehead State University.

As a result of new admissions standards approved recently by its Board of Regents, MSU will evaluate prospective students on a combination of high school grade point averages and scores on the ACT (American College Test), which is required of all students entering Kentucky's public universities.

However, in keeping with MSU's tradition of providing opportunity to students who desire a college education, the new admissions policy also includes the establishment of a summer program for basic skills for applicants falling below the new requirements.

Students who successfully complete the summer program would be eligible for admission in the fall term.

School guidance counselors have further information.

SSI PAYMENT RATE EXPLAINED

The supplemental security income (SSI) program makes monthly payments to aged, blind and disabled people who don't have much income and don't have a lot of resources. For example, a person with income of less than $334 a month, or a couple with less than $402 a month, may be eligible for SSI payments.

Also, an individual with $1,500 or less in assets, or a couple with $2,250 or less, may be eligible. These limits will increase in future years.

The amount of a person's or a couple's SSI check depends on their other income, their living arrangements, or any other conditions that affect their financial situation.

The first SSI check covers only the actual days of eligibility in the month; payment cannot be made for any days prior to the date of application. The full month's payment starts with the second SSI check.

The check generally arrives in the mail on the first day of each month; however, if the first falls on a Saturday, Sunday or a legal holiday, the check will usually arrive the Friday before.

VA QUESTIONNAIRE MUST BE COMPLETED BEFORE JANUARY 1

Nearly two million Veterans Administration pensioners will receive the agency's annual income questionnaire around Nov. 1 to determine their future eligibility for the VA needs-based program.

The questionnaire, required by law, must be completed and returned to VA by January 1, 1985. Pensioners who do not return the questionnaire may have their monthly checks stopped, the VA said.

The questionnaire will go to all persons receiving VA pension payments or Parents' Dependency and Indemnity Compensation benefits.

MICROWAVE HEATING AIDS MILK LIFE

It might not be necessary to throw out that slightly rancid, week-old milk in the refrigerator if there's a microwave oven in the house.

According to a food and nutrition authority with UK's College of Agriculture, that milk can be saved and the fresh taste restored by heating it in the microwave in a manner much like an old-style pasteurization process.

Dr. Joe Dennis Fox said a cup of deteriorating milk can be saved by heating it to 140 degrees Fahrenheit for two minutes in a microwave at 2450 MHZ. New research from Cornell University shows that microwave heating kills the bacteria which causes milk to become fruity, sour or stale.

Milk acquires this unpleasant taste before it is actually unsafe to drink, so consumers can restore a fresh taste to week-old milk without affecting its nutritional value. But Fox said it's important to use an open container while heating the milk. The container should be open so the volatile flavor components can be steamed out.

He also suggests that the milk be cooled as rapidly as possible after the heating process. Fox suggests putting the container holding the heated milk in a large container of cold water. This cooling process can be speeded up by agitating the milk, he said. It almost amounts to a second pasteurization.

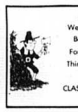
'UNDELIVERABLE' REFUND CHECKS AWAIT TAXPAYERS

Raymond L. Rizzo, district director of the Internal Revenue Service, has released the names of those Kentucky taxpayers to whom federal tax refund checks were issued in 1984 and the checks were returned to IRS as "undeliverable."

The list includes 975 individual tax refund checks totaling $357,227.67. The tax refund checks range from $21.362.00 to $1.31 with an average check of $366.38.

Rizzo stated that partly as a result of publicity given the undelivered list of last year's refund checks, the original number of 542 undelivered checks was reduced to 90 by August 1984. We hope to have similar success this year in returning the refund checks.

If you think you may be due a refund and have moved or changed your name during the year, you should call the IRS toll-free at 1-800-424-1040.



We Should All Be Thankful For the Many Things We Can Get In CLASSIFIED ADS!

SEEDLINGS AVAILABLE FOR REFORESTATION PROJECTS ON FARMS

Farmers interested in replacing trees in their land or developing idle acres with a stand of trees may want to investigate a program of the state Division of Forestry.

"Each fall, landowners plant more than one million tree seedlings on idle lands," said state Agriculture Commissioner David E. Boswell. "Fall is an excellent time to reforest acreage, and this year is an especially good time because of the availability of a wide variety of seedlings. Many people who wait until spring to order seedlings may not get delivery of some choices."

The Forestry Division, a part of the Natural Resources and Environmental Protection Cabinet, operates three nurseries in the state. This year, officials estimate the nurseries will produce 11.7 million seedlings. This compares with 9.3 million seedlings last year.

This fall, the division offers Scotch Pine, Cottonwood, Black Alder, Loblolly Pine, White Pine, Black Walnut, Shortleaf Pine and Virginia Pine. Some of these seedling varieties and others, including walnut, will be available this spring.

The seedlings are sold in bundles of 100, 500 and 1,000. The price of the seedlings varies according to tree species; however, prices range from $12 to $17 per 100 bundle to $40 to $125 per 1,000 bundle.

For more information and order blanks, contact any local office of the Division of Forestry, county extension service, Soil Conservation Service, Agriculture Stabilization and Conservation Service, or write the Division of Forestry, 627 Comanche Trail, Frankfort, Ky. 40601.

'LITTLE COLONEL' EXHIBIT OPENS

Kentucky's own turn-of-the-century literary heroine, The Little Colonel, is being remembered in an exhibition now open at the Kentucky Department for Libraries and Archives, 300 Coffee Tree Road, Frankfort.

The exhibit, featuring books from the popular fictional series about a girl from Peewee Valley, Ky., also includes photographs, letters, manuscripts and other related items.

Written by Annie Fellows Johnston, The Little Colonel books have entertained many generations of readers.

The exhibit is open weekdays, 8 a.m.-4:15 p.m. through Dec. 9.
