SCHOOLS SLATE MOCK ELECTION

On November 1, thousands of Kentucky students in grades 7-12 and hundreds of parents will be participating in the 1984 National Student/Parent Mock Election.

Sponsored nationally by Teachers Guides to Television Family Institute in New York, the mock election gives students a chance to learn firsthand about the American political process.

Students in all 50 states will also be casting their ballots on November 1.

The State YMCA of Kentucky, which sponsors annual conferences such as the Kentucky Youth Assembly and the Kentucky United Nations Assembly, has informed every middle, junior and senior high school social studies teacher in the Commonwealth of the event.

LEGAL NOTICE
The U.S. Department of the Interior, Fish and Wildlife Service, announces a proposal to add Short's goldenrod, Solidago shortii, to the endangered species list in order to give the plant protection under the Endangered Species Act of 1973, as amended. No areas of critical habitat are being proposed. The proposed action, published in the Federal Register of October 11, 1984, follows a thorough review of all available information on the species. Only four populations of Short's goldenrod are known. One population is on land owned by the Commonwealth of Kentucky and an adjacent private property owner. The other three populations are on private property and adjacent highway right-of-ways. Factors affecting the species include recreational activities and natural or man-induced habitat alterations. The small number of individuals at each site significantly increases the vulnerability of this species to natural hazards such as fire. Comments from the public on the proposal should be submitted to the Supervisor, Endangered Species Field Station, U.S. Fish and Wildlife Service, 100 Otis Street, Room 224, Asheville, North Carolina 28801, by December 10, 1984. Requests for a public hearing must be submitted by November 26, 1984. Additional information may be obtained from the Field Station by calling (704)259-0321. 10-25-2tcg

STUDENT DROPOUTS EXPLORED ON KET

According to current statistics, one out of every three Kentucky ninth graders will not complete the 11th grade. Who are these students who do not finish high school? Why do they drop out? What are some solutions to the problem?

"Dropping Out: What's It Worth?" takes a look at these questions and explores the steps being taken to hold our young people in the classrooms. The program will air Monday, Nov. 12, at 7 p.m. on KET.

WinterCare benefits needy

The WinterCare Energy Fund, a privately funded energy assistance program has released its first annual report.

WinterCare was established in July 1983 in order to carry out a unique program initiated by Kentucky Utilities Company. Sixteen additional utilities joined WinterCare during its first year.

Kentuckians contributed over $100,000 through their local utilities to WinterCare's energy assistance program. Assistance, totaling approximately $85,000 was provided to 750 low-income households throughout Kentucky. A priority was given to low-income elderly and disabled persons. The WinterCare energy assistance program was ensured by 21 community action agencies in their local communities.

WinterCare has set a goal of raising $200,000 through the participating utilities in 1984-85. Additionally, as a result of a special project with Columbia Gas of Kentucky and the Citizens' Energy Corporation of Boston, Mass., WinterCare expects to be able to provide an additional $40,000 in assistance to low-income Columbia Gas customers.
