you like to see made in the local school program?

I don't know that I would change anything but I would give a lot more consideration of what is going on that it is being given now. There's too many years to everything that comes up. For example:

(1) Why do we keep teachers to get on tenure before we realize they can't really teach?

(2) Why do we hire so many family people of board members? Is there not anybody else?

(3) When we have an opening for a teacher do we really work for the best or do we just hire the first applicant?

(4) Why do we have to tax the people of this county so much; is it really necessary?

(5) Is it necessary for the families of the board to go on a trip every year using the taxpayers' money to go on?
