Would You Like To Get Back Part Of Every Dollar You Spend Shopping?

You can... when you SHOP AT HOME!

Most people know they usually get better values and service when they shop at our local stores.

But did you know when you shop at home you also get back part of each dollar you spend? Here's how: spending more at home means more money in the form of wages to local merchants and their employees.

More wages mean more taxes for local government, mean more and better community services and improvements, mean a stronger and healthier economy all around.

Shop at home for better values, better service, a better community and more jobs!
