What Do You Suppose Makes Stores Close Up?

Lack of business.

Most stores close because local people did too much of their shopping . . . OUT-OF-TOWN. In fact, there are many cases where most of the stores in a town must close up.

If that were to happen here in Carlisle, who would be left to help you pay this community's taxes, if empty stores were no longer paying their share?

Who would be contributing work and money toward local groups and projects in which you are interested?

You would have to carry the burden all alone. Think about it BEFORE you go shopping in a near-by city.

Keeping our home community healthy benefits every single member of this community.
