175 entries at NCES Science Fair

The Nicholas County Elementary School Science Fair came to life last week as the school reinstituted the once yearly event.

After the judging was completed, Jennifer Spickler was recognized as overall grand champion in the physical science division and John Nicholas Pope was overall grand champion in the biological science division.

Jennifer, the daughter of Mr. and Mrs. Harry Spickler and a first grade student, won her prize for a project on making a musical scale. John Nicholas, son of Mr. and Mrs. Charles Pope and a third grade student, received high marks for his project on the artificial ear. Each received a $25 savings bond donated by local banks.

Participants in the fair were placed in divisions according to grade level and the type of project, either physical science or biological science. Projects were also entered as individual and group efforts. Division winners were selected by a panel of 15 judges, including local people and students from Maysville Community College. Each project entered was also awarded a blue, red or yellow ribbon based on the judges' evaluation of the projects.

Division winners were recognized according to grade level with the division numbers corresponding to the student's grade level. Division winners were overall, encompassing both biological and physical sciences.

The division winners in the individual category were: Division I (kindergarten and first grade) — Jennifer Spickler, first; Chris Kelley, second and Holly Becker, third. Division 2 and 3 — Nicki Pope, first, Wesley Broderick, second and Marla Vice, third. Division 4 and 5 — Brian Canupp, first, Paris Barnes, second and Mary Ann Lawrence, third. Division 6-8 — Rexanna Wiglesworth, first, Lucinda Prather, second and Joe Hatton, third.

Division winners in the group category were: Division I — No entries. Division 2-3 — Israel Stacey and Chris Allison, first. Division 4-5 — Tracey Bartel and Jill Hardin, first, Renee Linville and Andrea Galbraith, second, Todd Gardner and Dwaine Sharp, third. Division 6-8 — Heather Hall and Martha Livingood, first, Randy Jolly and John D. Watkins, second, Damon Baker and David Sparks, third.

According to Principal Gerald Hammons, "Both the quantity and quality of the projects entered were beyond our expectations. We are well pleased with our students' participation in the fair and are looking forward to having it be an annual event."

Betty Conrad served as master of ceremonies.

Judge evaluates entries

Mike Sams and Travis Sims are shown being judged on their entry in the Nicholas County Elementary School Science Fair last week by Al Campbell, a judge for that event. — Guthrie photo

Division 6-8 individual winners

Individual winners in divisions 6-8 (grades 6-8) were, l-r, Joe Hatton, third place; Lucinda Prather, second place; Rexanna Wiglesworth, first place. Principal Gerald Hammons is at left. — Guthrie photo

Division 1 winners

Winners in division 1 (grades K-1) in the Nicholas County Elementary Science Fair held March 19-21 are, l-r, Holly Becker, third place; Chris Kelley, second place; Jennifer Spickler, first place. They were individual winners in both biological and physical science. — Guthrie photo

Division 2-3 individual winners

Individual winners in divisions 2 and 3 (grades 2-3) in biological and physical science were, l-r, Marla Vice, third place; Wesley Broderick, second place; Nicki Pope, first place. Principal Gerald Hammons, left, and Supt. Don Elder pose with the winners. — Guthrie photo

Division 6-8 group winners

Group winners in division 6-8 (grades 6-8) were, l-r, Damon Baker and David Sparks, third; Randy Jolly and John D. Watkins, second. Heather Hall and Martha Livingood (not pictured), first. In the background are Principal Gerald Hammons, Supt. Don Elder and Betty Conrad emcee. — Guthrie photo

Division 4-5 individual winners

Individual winners in division 4-5 (grades 4-5) were Paris Barnes, second place and Brian Canupp, first place. Not pictured is Mary Ann Lawrence, third place. At left is Principal Gerald Hammons. — Guthrie photo

Division 4-5 group winners

Group winners in division 4-5 (grades 4-5) in physical and biological science were, l-r, Todd Gardner and Dwaine Sharp, third; Renee Linville and Andrea Galbraith, second; Tracy Bartel and Jill Hardin, first place. In back is Principal Gerald Hammons. — Guthrie photo

A New Beginning...
Ever feel like starting over again? You can. Jesus Christ offers a life so new, so different, so revolutionary those who find it say it is like "being born all over again." In fact Jesus said, "Truly, truly, I say to you, unless one is born again, he cannot see the Kingdom of God." (John 3:3) Begin a new life in Jesus Christ today. By faith accept Him as your Savior and confess Him as your Lord. (Romans 10:9-10)

DU PONT REEMAY
SPUNBONDED POLYESTER
TOBACCO PLANT BED COVER
Suggestions for use:
1 Support with a thin layer of clean, sand free straw upon completion. Fit 30-60 per 100 sq. yds.
2 Fasten through loops provided along edges using U shaped wire fasteners.
3 DO NOT PULL COVER TIGHT! DUPONT REEMAY must be loose (layer of Reemay™ required).
4 If property adjoins cover should open slightly on the west.

Essay contest runner-up

Jill Crouch, daughter of Mr. and Mrs. Harvey Crouch of Upper Sharpsburg Road in Montgomery County, received the second place award in the Conservation Essay Contest at the 47th Farm Awards Luncheon sponsored by The Courier-Journal and The Louisville Times March 16 in Louisville. Jill received a $200 U.S. Savings Bond and a certificate of award in ceremonies presided over by Barry Bingham Sr., right and Paul Janensch, chairman of the board and acting editor and publisher of the newspapers. She is a great niece of Mr. and Mrs. Joe Crouch of Carlisle. A total of 40,000 Kentucky students entered the contest. — Photo submitted

New rate schedule to be set

Continued from page 1

service.

"When you borrow money," said Barton, "you can be sure that the people who are lending the money will see to it that we charge enough for the service to operate and maintain the systems and to pay off all existing and new debts."

THE LAST two pages of the seven-page letter from FmHA consisted of the minimum water and sewer rates that FmHA would accept if FmHA is to provide the financing. The Council was quick to compute that the customer who uses the minimum quantity of water (1,000 gallons or less, monthly) will experience a $4.36 a month increase for water and sewer combined.

"That's less than 15 cents a day," said Councilman Clarence Cord. "Nobody wants to see this thing (the rates) increase less than I do, but we need this water improvement project," said Cord.

Councilman Bobby Barnett feels "If the city puts this project off another year, the five percent loan money could be gone and then imagine what we would be asking of our water and sewer customers."

According to figures furnished by the City, the combined monthly water and sewer bill for 3,000 gallons usage would increase by $7.72. Usage of 6,000 gallons per month would cost $12.71 more. Customers using 10,000 gallons of water and sewer service could expect a $19.21 monthly increase.

To comply with the Farmers Home Administration timetable for loan eligibility to finance reconstruction of its water system, Carlisle City Council will meet in special session tonight, Thursday, at 7 p.m. to set new water and sewage rates for its customers.

Another meeting is scheduled for Tuesday, April 2 to give second reading to the ordinance. If approved by council, new rates would go into effect May 1 of this year.

At a called meeting March 19, council learned that it had 180 days (or until Sept. 15) to submit final engineering specifications and have bids to correct water plant and line deficiencies ready for approval by FmHA, should the loan, not to exceed $997,000 be approved.

The City will also be required to establish and make monthly deposits of $990 into a Depreciation Reserve Account, the required accumulative level which would be $118,800.

LOAN SECURITY requirements would include a statutory lien and combined pledge of water, sewer and gas revenue in the bond ordinance. The City is required to furnish satisfactory title, easements, etc. necessary to install, maintain and operate the facility for the intended users.

Currently there are 973 water users, 914 sewer users and 900 gas users, according to FmHA figures. These numbers will be authenticated by the FmHA District Director prior to advertising for construction bids.

Several conditions were set forth, including: no parking on sidewalks, no stands to be set on walks, no courthouse entrances to be blocked, and no heavy equipment to cross the walks.

Also, a policeman would be furnished for inside the courthouse, there would be no Sunday activity and the Legion would be responsible for any and all damages, including reseeding the courthouse lawn, if necessary, after the festival ends.

In other business, the court hired Ray Snapp to work at the quarry at $3.35 per hour...approved a budget appropriation payment of $2,500 to Community Action and $671 for law enforcement insurance policies, both from the Revenue Sharing Fund.
