**Two-car accident on Highway 36**

Rain-slick pavement was blamed in a two-car accident Thursday morning, May 17 on Highway 36, one and one-half miles west of Carlisle.

Reportedly, an eastbound 1978 Mercury driven by Deborah McCarty of Carlisle, Route 2 slid while trakking into a a westbound 1985 Ford driven by Delano Smoot, 7281 Maysville Road.

According to Deputy Sheriff Chuck Smith, the Smoot car left the road and hit a rocky embankment. The McCarty car also left the road, hitting a fence on G.W. Seaton property.

Smoot was treated at the Nicholas County Hospital for a broken hand and a cut on the chin which required seven stitches. Ms. McCarty was uninjured.

The Smoot car was a total loss, while the Mercury sustained moderate damage.

**Frog season opens; new hours set**

The frog season opened at noon May 17. Formerly, the season opened at midnight on May 15.

The new regulation, which stipulated a noon opening, allowed froggers to start enjoying their sport as soon as it was dark, instead of having to wait until midnight.

Daily limits remain at 15 bullfrogs, with a possession limit of 30 after two or more days of frogging. The "day" for frog regulation purposes extends from noon to noon. This means that you cannot gig a limit of frogs before midnight, then keep gigging since a new day has started.

The season extends through October 31.

**New Listings Needed**

In the last three months we have sold several houses and now find we need new listings to offer to prospective buyers. If you are interested in selling your home, we would appreciate a call or we could come to your home and help advise with you in the pricing of your home in today's market.

We have a good listing of houses and farms now, but we like to have the house or farm for that special buyer when they come in. We can help finance what we sell. We will appreciate your consideration.

**Gulf States Metal Building, 7 Acres, More or Less**

The building is in two connected sections with approximately 3,040 sq. ft. of floor space. The two sections are 40' x 36' and 40' x 40'. The balance of this space is in large storage areas with 12' ceilings which could provide ample storage for materials, etc. Also in this section is a 12' x 8' garage-type lift door for easy access to the storage area. The 40' x 40' area is a double bay garage area with poured concrete floors and two large 12' x 15' bay doors. The section was built to service heavy equipment. The entire building is well insulated with wall and ceiling insulation. The property is on the county water line. PUBLIC NOTIFICATION

The Sharpsburg Water District hereby gives notice that the maximum contaminant level for turbidity was exceeded during its recently reported period of March 1985 to the state's Division of Water. The test for turbidity is to be performed here in the water plant on a daily basis. It is a measure of the clarity of water and is one method of assuring purity.

Although turbidity itself is not usually a health threat, it does show a lowering of water quality and can interfere with disinfection of the water. The Sharpsburg Water District will take the necessary corrective action at the water treatment plant.
