Geno's & Mr. Tuxedo

HOURS: 9 a.m. to 6 p.m. Monday thru Saturday

Good tillth necessary to seedbed making

Trashed fields of crop residue are not forgotten or idle fields; they are busy, viable, controlling erosion and conserving moisture.

Good tillth indicates that soils are loose, easily crumbled, to provide a good seedbed. This allows ease of root growth, provides easy movement of soil moisture and better use of fertilizer.

At the banquet the memory of Tommy Bell will be honored as Christian Man of the Year. Each candidate for Christian Adult of the Year will be recognized as well.

IN EXAMINING your crops for the poor tillth, look at the growing crops. Corn may appear unthrived.

May We Help You
