## Southern States

### ALFALFA

Produces More Protein per Acre Than Any Other Crop

Classic:

Multi-pest resistance includes low levels of resistance to anthrax and phytophthora root rot, moderate resistance to potato leafhopper and good resistance to bacterial wilt. Excellent winter hardiness. Best adapted to well drained soils.

Hi-Phy:

It produces! Breeders believe Hi-Phy's excellent performance is a result of a multi-pest resistance complex along with good plant height, large leaves and strong regrowth after flowering. Its combination of resistance to phytophthora root rot, fusarium wilt and bacterial wilt is unmatched in the industry. Excellent winter survival, spring vigor and fall growth.
