## Girl Scout troops forming

In the next few weeks, Girl Scout troops will be forming in Nicholas County. According to Kaye Schneider, Field Executive from Wilderness Road Council, "We'd like to offer the opportunity to join Girl Scouts to every girl, aged 5-18 here."

The Girl Scout program is an informal educational one, incorporating fun in all the various activities. "The purpose of the organization is to provide girls an opportunity to explore the problems, challenges, responsibilities and rewards of today's world," says Ms. Schneider. She continues, "We help girls learn to be tolerant of others and their ideas, and help them develop their own personal goals, abilities and beliefs."

For more information about Girl Scouts, call Kaye Schneider in Morehead at 783-1771 or write the Wilderness Road Council, 2277 Executive Drive, Lexington, KY 40505.

# Kay's Kitchen

By Kay Fisher

Seems I'm about to spread myself too thin, but I must interrupt the party food column. I will finish it next week in time for the reunion parties.

The Owen's Seafood truck will be here today and so many people have called and asked if I could write something on how to cook shrimp, crab legs and such. Seems they would like to try the seafood but are not sure how to prepare it.

Since shrimp seems the easiest to me, will start on that...

TO BOIL: The shrimp may be boiled or steamed. The shell may be pulled off either before or after cooking. The intestinal vein, a dark line along the back of the body of the shrimp is removed with a pointed utensil or the blade end of a toothpick. It is harmless and not necessary to remove but may be unappetizing to some. A pound of shrimp in the shell will shell out to about ½ pound. It depends entirely on how you are going to serve the shrimp and how well you like them to guess at the amount needed.

For 2-3 pounds of raw shrimp, bring 8 cups of water, 1 chopped onion, 1-3 cloves of garlic (crushed), 1 bay leaf, 2 ribs of celery with leaves, 2 tablespoons salt, several whole peppercorns to a boil, lower heat and simmer about 10-15 minutes. Add two cans of beer, or 1½ cups dry sherry and 2-3 pounds of shrimp. Return to a boil and boil until shrimp turn pink. This takes about 5-8 minutes after it returns to a boil.

Drain shrimp and serve "in the rough" at the table, each person shelling their own. Serve with cocktail sauce, French bread and tossed salad. Unless you have lots of shrimp, maybe you had better serve a baked potato with this.

SAUCE: To 1½ cups catsup add ¼ cup chili sauce, 2-3 tablespoons horseradish sauce, juice of 1 lemon, 1 tablespoon worcestershire sauce, hot pepper sauce to taste. Combine well and chill.

***

The cooked shrimp may be chilled, shelled and deveined to serve in a variety of ways.

GARLIC BUTTERED SHRIMP
1 pound large shrimp, shelled and cooked
¼ cup butter
1 tablespoon minced parsley
1/8 teaspoon garlic powder (depends on taste)
Dash of hot pepper sauce
3 tablespoons dry white wine

In non-stick frying pan melt butter and add remaining ingredients except shrimp. Cook 1-2 minutes. Add shrimp and heat through, turning several times. Serve at once. Add more wine if necessary.

***

Crab legs may be cooked in the same mixture you would use for cooking shrimp. The crab legs will turn pink but the cooking time is longer. To serve, crack and split the legs to make getting to the meat easier. Serve with drawn butter and lemon juice. If you have purchased the legs cooked and frozen, simply thaw and bring to a boil in the mixture and remove at once.

The greatest harm done to seafood is to cook it too long. When the meat will flake when pulled with a fork it is done.

LOBSTER TAILS: Thaw lobster tails and add to a pot of boiling water. After second boil, boil for 10-12 minutes. Drain. With kitchen shear, cut out membrane from underside of tail. Brush with butter and broil under broiler for 5 minutes at 450 degrees.

SCALLOPS, BROILED: Thaw and broil scallops under broiler at 450 degrees. Brush with butter, lemon juice and garlic. Broil about 10 minutes.

SCALLOPS, DEEP FRIED: Dip scallops in batter and deep fry until golden brown at 375 degrees.

## Miss Pam Kirby attends national FHA convention

Pam Kirby, a student at Nicholas County High, was one of 2,700 student members to attend Future Homemakers of America's annual national leadership meeting at Orlando, July 21-24.

The youth-developed meeting theme, "Spotlight On You," emphasized the organization's belief in the importance of each member and each chapter. The program's philosophy of FHA that youth can make a difference in society...that individual efforts combined result in group projects that work.

The meeting featured a leadership track with over 12 hours of sessions and activities tailored to the needs and interests of youth leaders. Among these workshops were issues such as teenage pregnancy, teen suicide, fitness and nutrition, child abuse, family relations, community service, future careers and the changing roles of women. These projects will be carried out through the upcoming year in each local chapter.

Pam commented, "This meeting helped me to gain a great knowledge of FHA and everything it has to offer. I hate to offer in the upcoming year. My goal is to help my chapter grow with the widespread range of interest for each and every member to be involved with in FHA."

FHA is a national vocational student organization of 320,000 home economic students through grade 12. The emphasis of the programs is to prepare youth to assume these adult roles in society. It is unique among youth organizations because programs are planned and run by its student members.

FHA is the only in-school organization with the family as a central focus.

Pam is the daughter of Mr. and Mrs. Dewey Kirby. She is the president of the Nicholas County FHA chapter and vice-president of the region. Her advisers are Mrs Bonnie Metcalfe and Mrs. Martha Taylor.

## Beautiful: Tips from the Hart

**Dear Hart,**

Please tell me anything you can about dry skin. I have a very dry patch on my forehead. It is dry and flaky. No lotions, creams, or oils can remove it. It is the size of the end of your finger. I wonder if it will spread. Your tips have helped me.Thanks, Lorena

**Dear Lorena,**

From your description your dry skin could be caused by an allergy. You may have become allergic to something say, brand X lipstick, 6 months or years of use.

I want you to see a dermatologist. If he/she finds you have dry skin, my tip is to moisturize. The best moisturizer is water. A top dermatologist did an experiment with calloused tissue from the bottom of a foot. He used various kinds of oils. Nothing happened. The calloused remained tough and brittle. Then he dipped a sample of the same tissue in plain water. Soon the calloused became soft and flexible. I use this principle everytime I open the door of my dishwasher after it has finished its job. I absorb as much steam as possible. This is an inexpensive sauna. Put a film of oil over the skin. The oil will prevent water evaporation from the skin.

A vitamin A deficiency can cause dry skin. Make a mash of fresh or dried apricots (rich in vitamin A) soak in water for two hours. Mix with honey and apply to the skin. Leave on 20 minutes and rinse off with lukewarm water. Good luck!

**Dear Hart,**

I have small hairs around the outer edge of the nipples of my breast. Is it normal to have such hairs? Is it harmful to remove them? J. A.

**Dear J. A.,**

After puberty some hair on the breast is normal. The amount of the hair depends on heredity.

You can clip, shave or pluck, all are safe.

**Model Tip:**

Color your world. Researchers think that different colors can cause different behavior reactions in you. For example, pink, in certain shades may act as a sedative and relax muscles. The brain reacts to pink by slowing the release of adrenaline into your system, which in turn slows the heart muscle and calms. Pink is the favorite color of my mother-in-law, and a lot of other women.

Please send questions to... Beautiful: Tips from the Hart, P. O. Box 72297, Louisville, KY 40272.

## Health Tips from Lee Rose

### Baby pacifiers

The survival of all babies depends on the sucking instinct to provide vital nourishment.

Besides functioning as the route for food, the sucking process is one of great pleasure for your baby.

It is now generally accepted by the medical field and parents that pacifiers do satisfy a psychological need for infants. The question is not "should a baby have a pacifier?" but "what is best and safest to use?"

Purchase a pacifier that is soft and flexible, similar to mother's nipple.

Never use a homemade pacifier. One constructed from a nipple and ring intended for use on a baby bottle can separate; possibly causing the baby to choke.

For safe pacifier use, Ross Laboratories recommend:

1. Clean a new pacifier thoroughly before first use. Wash in hot water and gentle detergent, rinse thoroughly, and then boil in an open pan of water for 10 minutes.

2. Clean your baby's pacifiers frequently. It's a good idea to wash the pacifier each time you give it to your baby.

3. Do not wash pacifiers in a dishwasher.

4. Pacifiers can wear out with use. Test the pacifier before each use by pulling on the bulb (the portion that goes in the baby's mouth). Discard the pacifier if the bulb tears or separates from the unit.

5. Replace a pacifier as soon as it becomes sticky, enlarged or cracked, or shows other signs of wear.

6. NEVER TIE A CORD TO A PACIFIER (OR ANY OTHER ITEM YOUR BABY MIGHT USE). Your baby could strangle on the cord.

ing companions, including spending winters in Cape Charlotte, Florida until 1984.

"Miss Bess" was known as everyone's friend and was especially loved by her former students. One, Doug Garrett, once gave her a cherry bed side stool for "all the help and love you gave me during my school years."

Another, Gladys Clinkenbeard Shrout, admired her courage and bright outlook despite suffering from cancer in recent years. "She was in a lot of pain but she never let on," Gladys said.

documents are on file prior to admitting the student. No child will be admitted unless these records are complete.

With the exception of kindergarten students, all parents of students enrolled during the last school year were notified at the end of the year if their child's records were incomplete. Parents having questions about their child's health records should contact the school.

As in past years, students will be bringing home several forms to be completed by the parents and returned to the school as soon as possible. Among these will be the following forms: applications for free/reduced price meals, emergency medical forms, enrollment information forms, textbook forms and student handbooks including the student code of conduct.

EFFECTIVE July 1, 1986, any student between the ages of 16 and 18 who wishes to terminate his/her education prior to graduating from high school will not be allowed to drop out unless written notification is received from the parent or guardian at least 60 days in advance. During the 60 day period, the parent(s) and the child shall be required to attend a one hour counseling session during which they are shown a presentation prepared by the Kentucky Department of Education. This presentation gives economic statistics and other information on potential problems of non-graduates.

The calendar calls for schools to close May 22. A secondary closing date of June 3 has been adopted if classes have to be extended due to bad weather conditions during the winter.

THE FOLLOWING school personnel have responsibilities in the stated areas and should be contacted by the parent if there are questions:

Central office personnel, phone 289-2284. Donald G. Elder, transportation and system-wide information; Betty L. Conrad, school health records and attendance; Zillie Becker, textbooks and exceptional children's programs; Bill Guthrie, school food service and remedial programs.

Elementary school personnel, 289-2284. Gerald Hammons, elementary school information; Marium Williams, elementary school information/exceptional children; Brenda Anderson, school records and transfer students.

High school personnel, 289-7111. Greg Reid, high school information; Bill Anderson, athletic information; and Debbie Vice, student scheduling and school records.

noted that Eugene Sibert will do the plumbing, with Donald Robinson doing the concrete block work. Volunteers are still needed for roofing and woodworking, Zachary said.

All work must be completed by Oct. 10 to comply with terms of the grant being administered by Bluegrass Area Development District.

THE $66,000 grant represents matching funds of $33,000 raised at the local level. Zachary said that these funds are several thousand dollars short of what is necessary to fund the park.

He said he is awaiting word from the Lions Club and 4-H Council concerning future plans for the horse show ring. It was hoped the Lions would stage their annual show at the park, but that would be too late. There is not enough time to install additional lighting and other facilities needed to have the show there this year.

Grading has been completed and the parking area graveled. While the show ring is indefinite, Zachary said the park could host tractor pulls.

Bleacher seating is planned, with each 5'x15' section costing between $800 and $900. "If any organization would like to donate a section we'd be pleased to accept it," he said.

## FmHA housing funds restored

Low-income families in rural areas may find some help with home financing after the recent reinstatement of $700 million in previously deferred housing loan funds.

The funds will be available through Sept. 30 to help finance single-family or multi-family housing units for low-income families in rural areas, according to Kendell L. Seaton.
