Men play in wife's health... Today's column poses several important questions for husbands. Has your wife had a pap test in the last year and has she made an appointment for the next test? You are probably the only person to answer briefly, the pap test? It is a simple test that is normally done by a gynecologist or nurse. It is a test to detect cervical cancer. The earlier it is detected, the better the chance of a cure. It is a test that is normally done by a gynecologist or nurse. It is a test to detect cervical cancer. The earlier it is detected, the better the chance of a cure.
