

Homemade instruments

The Nicholas County Elementary School students pictured made their instruments and formed a rock band as an assignment in their music class.

Farm accidents claim 56 in '85

Fifty-six Kentuckians died as a result of farm-related accidents during 1985, most as a result of machinery-related accidents. Thirty-five of those directly involved in a tractor accident, statistically the most dangerous piece of equipment on the farm.

Among the 56 victims recorded during 1985, 44 or 79 percent of the total, were involved in tractor-related accidents. Thirty-five of those directly involved in a tractor accident, statistically the most dangerous piece of equipment on the farm.

As of the 56 fatal farm accidents involving machinery, approximately 48 percent, or 27, were the result of tractor accidents. Twenty-five accidents were recorded in tractors where the victims were run over by the largest implement.

As of the 56 fatal farm accidents involving machinery, approximately 48 percent, or 27, were the result of tractor accidents. Twenty-five accidents were recorded in tractors where the victims were run over by the largest implement.

FmHA hires employees to speed loanmaking

The Kentucky Farmers Home Administration has hired approximately 25 temporary employees to help process farm loan applications. Most of the temporary employees are familiar with farm loan processing requirements, so they will need only a minimum of training.

EKU will conduct Foster Music Camp again in June

Eastern Kentucky University will host the 1986 edition of the Stephen Collins Foster Music Camp this summer beginning in mid-June. The summer camp, divided into four sections, provides intense musical training for several hundred young musicians from across Kentucky and the region.

FFA welding team members with their equipment. The Nicholas County High School FFA welding team won regional competition at Woodford County last week.

Toyota and Automation: Are they friends or foes?

Probably two topics on the minds of most people in the Commonwealth of Kentucky are "Toyota" and "robotics." This is a time of economic downturn, and many people are looking forward to economic development with great expectation.

My question is, "Why did we wait so long to do it?" Whether we are willing to admit it or not, the United States is facing an almost impossible task - the task of revitalizing America's manufacturing industry and keeping Americans employed.

MEMORIAL WREATHS. Today the demand for technical training in the area of automated manufacturing and robotics is growing.

Conservation's new frontiers

The Nicholas County Conservation District will join the nationwide observance of Soil and Water Stewardship Week, May 4-11, announces District Director A. Dyer.

Conservation's new frontiers is the theme of this year's observance. The reference booklet suggests a review of the pioneer spirit to explore the new frontiers of today.

Materials especially designed to carry the 1986 theme of "Conservation's New Frontiers" are being distributed through local conservation districts to citizens, landowners, and individuals participating in the observance.

To The Voters of Nicholas County

To read recent articles in the Carlisle Mercury would lead one to believe Adrian Arnold was the salvation of the State of Kentucky and to Nicholas County in particular.

Before every election we read what all the politicians have done for us. What has Adrian Arnold done for us? Most of us will find out at the gas pump come July 1.

Still "hot" about your furnace's poor performance last winter? If a troublesome furnace has you "harmed up," warmer weather may be the time to consider a changing clean, comfortable electric heat. Electric heat offers a host of systems - including one that's probably right for your home and your family's lifestyle. For example: • the electric heat pump, it's extremely efficient in winter, and a high efficiency central air conditioner in summer, too. It can even be added to your present system.
