Child safety awarness campaign underway

May is National Child Safety Awareness Month and May 25 is National Missing Children's day. There are thousands of children reported missing each year.

Today's child is tomorrow's adult and we must protect and recognize our children as our future. The following calendar of events has been planned and sponsored by Johnson-Mathers Health Care, Inc.

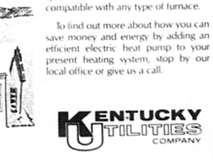
Get the air conditioner that's NOT just a fair-weather friend.

Adding or replacing a central air conditioner is a big investment. So, why not get one that cools *and* heats?



The electric heat pump cools the house in summer, just like any other central air conditioner. But, added to an existing furnace, it also gives the heating system a tremendous boost in winter. It's compatible with any type of furnace.

To find out more about how you can save money and energy by adding an efficient electric heat pump to your present heating system, stop by our local office or give us a call.

READY FOR A CHANGE?

Elect TOM HOGGE
State Representative

FARMING - Tom Hogge has been a life long farmer. He believes it time we quit apologizing for being tobacco farmers. Our farm income is the foundation of our local economy. Therefore it is imperative that we give agriculture the attention it deserves. For too long state representative has allowed agriculture issues and other concerns to distract his time and energies away from agriculture. You deserve a State Representative who will put AGRICULTURE FIRST!

ECONOMIC DEVELOPMENT - For too long, many of the young people of Bath, Montgomery and Nicholas Counties have had to leave home in order to find a job or pursue a career. As your State Representative, Tom Hogge's priority will be to work hard to attract industry and to keep our local economy strong. Tom believes that we must not sell out, but rather aggressively but we must work to protect and keep the jobs we have! For the past 12 years we have had no leadership from our State Representative to attract new or expanding industry to our district. Currently our state is spending $300 million to bring Toyota to Kentucky. Hopefully, this will give our communities a chance to attract support industries. It is critical that we now elect an aggressive State Representative who will make a difference!

EDUCATION- Tom Hogge cares about education. He has a strong educational foundation. His father, Glenmore Hogge is a retired school teacher, school principal and county superintendent and is currently a member of the Bath County Board of Education. His mother, Beatrice Carmichael Hogge is also a retired teacher. His parents have taught in both Bath and Montgomery Counties. Two aunts who are also retired teachers. Tom believes that we must not sell out, but rather aggressively but we must work to protect and keep the jobs we have! For the past 12 years we have had no leadership from our State Representative to attract new or expanding industry to our district. Currently our state is spending $300 million to bring Toyota to Kentucky. Hopefully, this will give our communities a chance to attract support industries. It is critical that we now elect an aggressive State Representative who will make a difference!

Elect TOM HOGGE
