Despite the tremendous need for blood, about five percent of those eligible to donate give blood. Donating is quick, easy, and safe. Volunteer donors undergo a thorough medical screening, including a medical history, blood pressure, and other checks. Sterile needles and materials are used, and then the needle is discarded. Donating only takes 15 minutes.

The Nicholas County donor group will sponsor a blood drive Monday, Nov. 24, from 12:30 noon to 2:00 p.m. at the United Methodist Church in Carlisle. The need for blood is great this time of year. Please call Barbara Hopkins at 295-2831 today for more information about donating.
