#### Letters...

I would like to see the members of our reading group would ask "Was that the last?" and another person would answer "Yes, and you had better hurry because Miss Nancy is coming to the school." I am thinking that after 30 years of teaching I am beginning to feel that I am being open to new ideas. I trust that the Carlisle that has meant so much to so many of us will not change too greatly. However, if technology does force a change I trust that Carlisle will still maintain the values of life that are influential in the lives of people who have passed that way.

**Sincerely,**  
Advert W. Swartz
