Eye Openers
By Dr. Robert F. Pretzsch, Optometrist

MEDICARE COVERAGE EXTENDED

Medicare now pays for eye health care services provided by optometrists. Up until now, Medicare has reimbursed only post-surgery cataract patients for eye health care examinations, glasses and contact lenses.

The new regulations allow older Americans to continue using the doctors who have taken care of their eyes for years and now get the eye health service part of the eye examination reimbursement by Medicare. The EYE HEALTH part of an examination is defined as: a visit necessitated by a symptom or complaint by the patient; treatment of eye disease; and - for those who have had cataract surgery - glasses or contact lenses. Medicare still does not pay for the part of the eye examination that determines general lens prescriptions or the dispensing of non-cataract-related glasses or contact lenses.
