**Kentucky Afield**

**By Horro Misch**  
Some excellent winter fishing for crappie and sauger is being reported by district fishery biologists with the Kentucky Department of Fish and Wildlife Resources.

Kentucky, Barkley and Barren River lakes are producing the best water levels for crappie and sauger.

**Nicholas teams draw Paris**

The Nicholas County Boys Basketball team, and the Nicholas County Girls Basketball team, have both drawn Paris as an opening opponent in the 37th District Tournaments.

The Lady Jackets will begin tournament play March 5, at 4 p.m. The girls' district will be played at Bourbon County High School.

The winner of the Nicholas County girls game will face the Bourbons for a berth in the finals.

Honoring its most successful coach, Morehead State University dedicated the Ed J. Johnson Basketball Arena during halftime of the MSU basketball University basketball game. Johnson, a Morehead native, coached the arena at MSU from 1958-1980. He later coached at Marshall University, Huntington, and his last team at Kentucky from 1980-1982. He later coached at Marshall University, Huntington, and his last team at Kentucky from 1980-1982. He later coached at Marshall University, Huntington, and his last team at Kentucky from 1980-1982.

catches of crappie, while Ohio River fishermen have been catching good catches of sauger and crappie. Good populations of sauger are also present in the Kentucky River system.

The recent warmer weather during the last two weeks has provided warmer water will bring these fish to shallower water which should allow anglers to connect with more consistency.

Kentucky, Barkley and Barren River lakes have been the three top crappie lakes in the state for several years, according to the biologists.

These reservoirs often produce large numbers of above-average crappie during the latter part of February and early March.

**EKU signs 15 players**

Eastern Kentucky University Head Football Coach Roy Kidd and his coaching staff agreed to recruit the past week to national level of talent for the EKVU football team.

The list includes 14 high school seniors and one junior college recruit.

Five of the athletes hail from Kentucky, six from Florida, two from Ohio and two from Illinois.

"I believe we did real well with our signing of these players. We need after season really hard and, looking at the list, I feel we signed this water were licensed," Kidd said.

"We signed a fullback and a receiver and these were also top positions where we felt we needed help for the future. We were really recruiting, not only for this year, but also for next season, when we lose four defensive linemen and some offensive linemen to graduation," concluded Kidd.

Kentucky players for EKVU include: James Jagers, Darren Rayburn and Bill Kercher from Louisville; Earl Swain from Huntington; Mark Barkhead and Carl Seltzer from Whitesburg.

low-water dam. Creek runs and ponds or fish along river channels are other good spots to fish for walleye and sauger.

These three species, along with trout, provide the first quality fishing opportunities for Kentucky anglers during the year.

Other fish can be caught when the water is cold, but most anglers find that crappie, sauger and walleye will be the best species to target.

**Afield on KET**

What new Kentucky hunting and fishing laws have passed recently? What are the biggest pressing wildlife conservation issues in Kentucky?

Time for KET's Afield, Wednesday, March 11 at 7 p.m. on KET, and find the answers to these and many more questions.

Join host Jeremy Driver and a panel of wildlife, hunting and fishing experts in considering a broad range of viewer questions concerning outdoor topics of your choice.

Wednesday, March 11, at 7 p.m. Kentucky Afield will have a second call-in specially designed to answer any questions about fishing in Kentucky.

Kentucky Afield is a co-production of KET and the Kentucky Department of Fish and Wildlife.

**Introducing Vinyl Prime Lifetime Series**

Call Us For FREE ESTIMATE.

Or You May Call Charlie (Jackie) Myers of Nicholas County Who Installs Our Windows, 289-2921.

**ENERGY EFFICIENT**  
Prime Vinyl Prime 78" double insulated glass reduce heating and cooling loss by 50 percent or more compared to old style, single pane prime windows. In addition, double weatherstripping of heavy duty polypropylene gaskets, heat or cooling loss between the moving parts and the main frame.

**MAINTENANCE FREE**  
Prime Vinyl Prime is virtually maintenance-free. No more painting or scraping, and no putty to chip, crack or need replacing. Vinyl will not discolor, warp, rot, swell, crack, or rust and is guaranteed to look great and work right.

**EASY TO OPERATE**  
Top and bottom sash glide smoothly and easily. No rattling, jamming, no pulled muscles or aching fingers. Integral sash lift on bottom sash and sash pull on top sash make opening and closing virtually effortless. Sash locks are secure and simple to operate.

**EASY TO CLEAN**  
Special spiral sash balances allow sash to operate smoothly and lift inward for easy cleaning. Now you can clean both sides of your windows safely and easily without the danger of hanging out the window or using ladders. Vinyl cleans easily with ordinary soap and water.

**CUSTOM FIT**  
Prime Vinyl Prime replacement windows are custom-made to the precise specifications of your present window opening. There's no need to rebuild window openings to accommodate "factory size" replacement windows, because each Prime Vinyl Prime window fits exactly, perfectly every time.
