

COMMUNITY SPOTLIGHT

Doc always looks for something new

By Boony Faust Of The Mercury Staff
There are some who take life as it comes...

born near Headquarters November 11, 1900, Allen has been a resident of Carlisle for over 31 years...

At 13, he began to spend his summers traveling throughout the central United States...

Play like "Fisher House," shown in light opera form, were also popular presentations of the Hopkins show...

Not nearly as famous then as he was to become in later years, Bergen was just beginning his career...

Geneva was playing piano for a revival at the Baptist church...

Telling her mother she would spend the night with friends, Geneva went off to begin her life with a man...

His wife recalls how he began to attend church.

It may seem that for the Allisons, it was work and to play, but they, too, enjoyed time for fun...

After Allen said he had an interest in the Hatfield Lumber Company...

This was the year the Allisons began to go to Florida...

"You wouldn't believe how many trailers were there," Allison said.

Geneva used to play in a "Kitchen Band" with her melodica...

Other vacation spots Geneva enjoyed were Europe and Mexico...

In Allison's own words, "Since 1976 I have just been walking the streets of Carlisle."

...he had known since childhood. "My mother was kind, sweet and had the night, once she found out...

"We built houses and tobacco barns, mostly," said Allison. "The company, at that time, in addition to selling building supplies...

"There were no empty buildings," he said. "We had the Lyle Theater, too, and we had a movie theater...

"I just got tired of the grocery store," he said. "I began working with the Department of Agriculture in 1932...

"People had to work long hours in those days to make a living," he said.

"I was used to call me 'thirty-two' because I was 32," said the president of the Woman's Club...

"I never got tired of it," he said. "I was a private non-profit agency dealing with mental health and rehabilitation...

"This day program supplies vocal instruction, counseling, and teaches activities of daily living."

"I have to be affordable - that is the very important," said Justice Hitchens, Comprehensive Care Team Leader...

"Our primary function is counseling and rehabilitation," he said.

"I would like to see a 'Kitchen Band' with her melodica...

"I would like to see a 'Kitchen Band' with her melodica...

"I would like to see a 'Kitchen Band' with her melodica...

"I would like to see a 'Kitchen Band' with her melodica...

"I would like to see a 'Kitchen Band' with her melodica...

...too much, on occasion," noted Allison. "When one of his patients, Jack Kimball, came in for a treatment, the doctor would be late...

"I had him the doctor was 'not' but would be late to work time," said Allison. "I decided to come back later when the doctor was in."

"I was used to call me 'thirty-two' because I was 32," said the president of the Woman's Club...

"I never got tired of it," he said. "I was a private non-profit agency dealing with mental health and rehabilitation...

"This day program supplies vocal instruction, counseling, and teaches activities of daily living."

"I would like to see a 'Kitchen Band' with her melodica...

"I would like to see a 'Kitchen Band' with her melodica...

"I would like to see a 'Kitchen Band' with her melodica...

...in this colonial way of looking at things that interests others with the same sense of humor. When one looks at his smile, he is never quite sure what mischief Allison has in his sleeve.

"I was used to call me 'thirty-two' because I was 32," said the president of the Woman's Club...

"I never got tired of it," he said. "I was a private non-profit agency dealing with mental health and rehabilitation...

"This day program supplies vocal instruction, counseling, and teaches activities of daily living."
