A New Generation of Leadership

"Everybody talks about Kentucky's future, but to me, it's more than words. It's the quality of our schools -- the opportunities we give our children."

"As Governor, I intend to make education a top priority. We must provide our children with an education second to none -- to prepare them for the new economy of the twenty-first century. I want Kentucky to be the state with the best schools and the best minds in the nation. Only then will we permanently overcome Kentucky's difficulties in finding jobs to keep our young at home."
