Eye Openers By Dr. Robert F. Pretzsch Optometrist

GLAUCOMA

But like high blood pressure, inter-ocular pressure can be rolled and damage to the eye can be avoided. And as wit blood pressure, it is best to detect and control the condition

its earliest stages. In some types of glaucoma, there are virtually no sympton the early stages. Therefore, it is important for everyone to sted for glaucoma during regular eye examinations. Mo see of the condition are picked up during routine eye exam tions and referred for treatment.
