Consumers Buy Service; Theme for national week

"Consumers Buy Service" is the theme of the seventh annual National Consumer Week, April 24-30, 1988. One again, we expect that hundreds of public and private organizations across the country will be participating in this week. We will highlight various programs and publications which give consumers the information and assistance they need to get the best value for their money in the marketplace. This year's "service" theme recognizes the importance of quality service to both producers and service industries to a health work environment. "Our goal is to help bring back some good, old-fashioned customer service to all industries, those that offer services, those that manufacture products, and everyone in between," said Virginia H. Knauer, Special Advisor to the President for Consumer Affairs and Director of the U.S. Office of Consumer Affairs, which sponsors the Presidentially proclaimed week.

Both sides of the table then went to discussing ways of organizing to conduct business, including topics involving: "The Individually Owned Business and The Business Partnership," "The Business Corporation" and "The Cooperative Business Corporation."

Following the discussions, the "Youth Scholars," according to Prather, completed quizzes called "Pay Day" exercises.

These exercises helped them to better explore how well they have mastered the basic concepts involved and broadened in the proposed discussions.

High scoring participants will receive expense paid scholarships to the three day Kentucky Youth Seminar at the University of Kentucky to be held in June of this year.

Accutran dedication set April 30

A dedication ceremony and open house at the new facility for Accutran on Legion Road, Paris, will be April 30, Saturday from 11 to 1. There are many categories of work. Some are industrial jobs for which Accutran has made a sub-contract with business houses and manufacturing corporations in central Kentucky.

Workers then receive pay for the work accomplished and feel a sense of pride and self-worth that can come with employment working under supervision at \$2.83 per hour plus fringe benefits. This promotes pride, self assurance, independence, and economic satisfaction for those who have been given this opportunity to prove a usefulness.

The goal for a rehabilitation establishment such as Accutran is to help all handicapped individuals reach their full potential.
