Drought also.....

Continued from Page 13

According to Timmy Glass, keeper of the course at The 19th Hole, playing is down at least 25 percent.

Glass said, "It is more because of the hot weather than anything."

He added, "We get most of our golf business in the morning or late afternoon hours from Lexington, Paris, Cynthiana, Maysville and Clay City.

"But, as of late, our weekend play has dropped substantially."

Golf course grass has also suffered from the drought.

Glass said, "We have a sprinkler system on the greens and tees and we utilize that water supply at night.

"However, we do not have a system for any type of irrigation on the fairways and they have become really brown in spots."

The 19th Hole will be paying for the damage the drought has caused the golf course in the long run.

Glass said, "It will be some expense to re-seed the grass in parts, and then there is the fact that play has dropped."

The only advantage the drought has added to the game of golf is hard ground.

According to Eddie Tyree, head professional at the par-70, 6,517-yard Seneca Golf Course in Louisville "hackers" get more roll on the ball, more loose out of their drives and face fewer hazards on a dry fairway.

Glass says this is only advantage on a flat course.

He said, "We do have a lot of hills out here and that ball does roll, but it may be to his or her disadvantage."

The course will continue to weather the drought and most probably gray for rain as have most citizens in Nicholas County.

Rates for play at the 19th Hole are five dollars during weekdays and seven on weekends.

Social Security Update

Q. I've had a number of jobs in the last 5 years and I'm not sure that all the money I've paid in Social Security taxes has been reported by my employers.

Is there any way I can check?

A. There certainly is! Just stop by any Social Security office and tell them you want to check your earnings record.

You'll receive a free form to fill out and return by mail.

In a few weeks, you'll receive your statement of covered earnings in the mail, which you can use to check against your own records. While it won't show the amount of Social Security taxes you've paid, it will show the amount of earnings you've had under Social Security and, if you request it, the quarters of coverage you've earned.

REVIEW
"BIG TOP PEE-WEE"
By Bob Thomas
Associated Press Writer

How does an adult reviewer approach a movie such as "Big Top Pee-wee"? Very carefully.

If you lambaste it as an entertainment aimed at the 5-year-old audience, you might be accurate. But you could also be accused of being a kill-joy and a fogy. If you try to compare it with the innocent comedy of the silent screen, you might also score some points. But you could also be accused of hunting for gold in a pile of dross.

So here goes.

"Big Top Pee-wee" is a clever piece of pure entertainment conceived by Paul Reubens and executed by Pee-wee Herman, who are the same person. Those who loved "Pee-wee's Big Adventure" will adore this one.

"Big Top Pee-wee" was produced by Reubens and Debra Hill, and written by him and George McGrath. The rating is PG, perhaps for sexual innuendo. Running time: 87 minutes.
