The presentation was made by Dr. Bob Sparks, president of the History Club. George Johnson, also a scholarship winner, was unable to attend.

Call WEDCO for answers

If Home Health Care is a new idea? Is it just a few of the 'right' I don't know? Years ago most people were treated in their homes by doctors, nurses, family and friends. Then things began to change and more and more people turned to hospitals and nursing homes for their needed care.

Now, with the rising costs of medical care in hospitals and nursing homes, things are changing again. More and more people are receiving care in their homes.

This care is being provided through Home Health Agencies, Health Departments, Senior Citizen Centers, Hospice Agencies, and WEDCO Home Health Agency and we will be glad to answer your question.

WEDCO Home Health Agency is an affiliate of the Kentucky State Department of Health and we provide service to residents of Bourbon, Harrison, Nicholas and Scott Counties.

We are a nonprofit organization and we serve clients of all ages, regardless of race, color, creed, national origin, handicap, or ability to pay. For more information please call Nicholas County 289-7000.

Money Matters

The Federal Deposit Insurance Corporation is the agency of the government which insures your deposits in the FDIC. The FDIC insures the accounts of a bank member cannot be expelled anywhere in the banking community.

By definition the money invested in a bank is classified as a deposit. Money invested in other forms of financial institutions is in many cases considered to be a "loan." This is a loan because the customer's "deposits" and customers' deposits are classified as "loans" to the bank.

This is an important difference which can never be noticed by the customer since it is not until the bank fails that the difference becomes apparent. The FDIC insures the accounts of a bank member cannot be expelled anywhere in the banking community.
