Trees are destroyed during holidays

Thanksgiving weekend, usually a time when people are thinking of others, two trees were hacked down in front of the Community Action Center park and carelessly thrown across the road.

The trees were gifts from the late Dr. Edie Asbury, who often worked at the old hospital.

This act of vandalism follows has distressed the head of the Center, Margaret Hunter.

"We have begged, borrowed and bummed to make this a good family-oriented park," she said, noting that they had recently installed a security light to combat problems like this.

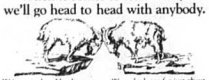
When it comes to loan rates, we'll go head to head with anybody.



We're agricultural lending specialists. That means we'll butt heads with any other lender when the people to be served are farmers, part-time farmers, or rural residents.

We make loans for just about any agricultural need. We make them for a few months or for many years. They can be at adjustable or fixed rates.

We're also a borrower-owned organization, so we keep rates as low as good business practice indicates.

We work for farmers. You keep America strong.
