Approximately 300 ice cream growers of Nicholas County, in a meeting at the court house, Saturday afternoon, voted almost unanimously in favor of the organization of a co-operative marketing association and for the reduction of 25 percent in next year's to-be crop.

The trend of analysis in Kentucky has been markedly upward for the past few months. Now the number of cases of this disease has far surpassed the expectancy. There are about 20 cases in which there is one or more cases, one county having reported 72 cases.

At our next head week we carry a new heading which was designed by Warren F. Fisher, beloved editor of the Mercury, the death of which was final after his death on December 18. Mr. Fisher had planned to have his heading made and put in use the first of the year.
