HYBRID FORAGE SORGHUM
GREENBUG RESISTANT SUMMER ANNUAL
"GRAZE, GREEN CHOP OR HAY"
T-E HAYGRAZER II
• Astonishing Growth
• Drought Tolerant
• High TDN Per Acre
• Carries 4-5 Cows Per Acre
• Fast Recovery with Unexcelled Regrowth
HAYGRAZER is the summer annual that all hybrid sorghum standars are compared to. It is a multi-purpose crop that can be used for grazing hay, green chop, haylage, green manure or for a cover crop. Haygrazer grows extremely fast, sometimes 2" per day under ideal conditions. It produces enormous amounts of lush green foliage. After cutting, each stalk produces 5-10 liters which provides amazing regrowth. For maximum regrowth leave 8-10 inches of stalk when cutting.
