Wesley honored by Ohio State University

The Ohio State University School of Medicine has named **John E. Wesley, M.D.**, the 1988 Colwell Memorial Lecturer in Ophthalmology. The lecture and award ceremonies at Vanderbilt University and Baptist Hospital in Nashville, Tennessee, were illustrated to manage facial paralytic.

Dr. Wesley is the son of the late Mr. and Mrs. Raymond J. Wesley of Carlisle, Kentucky. He was graduated from Nicholas County High School in 1943, the University of Kentucky in 1947, and the Vanderbilt University School of Medicine in 1951. He is the author of a book entitled *Tekhalnia in Ophthalmic Plastic Surgery* and presently serves as program chairman for the American Society of Ophthalmic Plastic and Reconstructive Surgery.

Health Department offering free screenings

The Kentucky Diabetes Control Program, is offering free eye tests for diabetes-related eye disease. Having diabetes places people at higher risk for retinal, glaucoma, and other eye problems that could lead to blindness if not treated. Therefore, all people with diabetes are urged to have eye examinations at regular intervals.

The Nicholas County Health Department, in cooperation with

Letcher initiated by Phi Kappa Honor Society

Mrs. Dawn Curran Letcher of Carlisle was recently initiated into Phi Kappa Phi Honor Society. Letcher, a senior law major, is the daughter of Mr. and Mrs. Howard Curran and the wife of Paul Letcher, a member of the Pre-Law fraternity, the Kentucky Academy of Sciences and has served as a science fair judge.

Phi Kappa Phi initiates may be junior, senior, alumni or faculty. To be eligible for membership, juniors just have a grade-point average of 3.7 or higher and seniors must have a 3.6 grade-point average or higher.

DRIVING TIPS FOR SENIORS

Many older Americans continue to drive well into their eighties. These drivers should have their eyes checked regularly to make sure that they can continue to be safe drivers. The following do's and don'ts will make you even more secure behind the wheel.

- Do have proper glasses for both day and night driving. You may need a stronger prescription for night driving when there is less light.
- Do wear sunglasses to protect with the glare of sunlight or its reflection on snow. Don't wear sunglasses for night driving; they reduce the amount of light entering your eyes and diminish vision.
- Don't wear frames with wide side pieces (temples). They block side vision.
- Do be sure your glasses and your windshield are perfectly clean. Don't buy a car with a totally tinted windshield. It cuts out too much light for night driving.
- If you have any difficulty driving at dusk - and many seniors do - don't drive at that time.
