What Jesus Taught

By George L. Rogers

Someone has suggested that the Christian life can be summed up in four small words: admit, submit, commit and surrender. These principles can be verified by the Holy Scriptures. Take the word admit. Before one can become a Christian, he must admit "I have sinned." The Bible says that "in is the transgression of the law." One who has sinned will with Israel until someone debauched God. But when Joshua and his people to determine who was guilty, Achan finally replied, "I have sinned."

One of the noted kings of Israel came to a point in his lives where he admitted sin. David truly felt guilty of his sin. Judas sold the Christ for thirty pieces of silver, but returned the money saying, "I have sinned."

When the prodigal son of Luke 15 returned home he confessed that "I have sinned." When our faith grows to where he can admit sin and mean it, then he has taken a giant step toward God. However, it is not enough just to admit sin, one must submit himself to God's terms. One must submit himself to God's terms. One of the greatest points of surrender is to deny one's self. (Matt. 16:24) There is a precious old song that says, "All to thee my blood and honor, surrender."

This attitude of submission leads one to obey God. (John 14:15) There is no question but that this kind of submission is pleasing to our heavenly Father. After submission to God will become a new creature in Christ. (2 Cor. 5:17) He is now ready to count himself or herself to the Lord's cause. The early Christians were properly after conversion. They repented their sins. They were clean. (1 John 1:9) They were clean. (1 John 1:9) They were clean. (1 John 1:9)
