### Kenney's team

Continued from Page 4  
 "Nick's a very impressive person," the coach said. "She runs a lot and has a lot of quickness. She seldom gets tired."  
 Nicholas County's primary goal this year is to win the district championship again, the coach said.  
 Kenney said the district would be tough. Paris, a traditional athletic powerhouse, also has an excellent team.  
 "I really think it will be a dog-fight between us and Paris," the coach said.

Kenney felt the 10th Region would be more competitive this year than in past years. But like other years, the Nicholas County

coach felt Clark County is the team to beat.

Kenney said she looked forward to the All A Regional but felt it would be as difficult to win as the regular regional tournament.

"First of all," Kenney said, "the tournament's going to be held at Paris and that should give Paris an advantage."

In addition, the Nicholas County coach felt there were plenty of strong A teams in the region.

"There is a team that really shoot the three pointers and Bracken County is going to be good and so will Bracken County. With the exception of Clark County and Montgomery County, it is as difficult as the regional tournament," Kenney said.
