I hope the people of this county and state are sick and tired of the socialistic dictators that are bleeding heart liberals trying to force on our people. As long as they will have a few people that will abuse their right to drive on our highways.

This dangerous section is the past year.
This dangerous section is the past year.
This dangerous section is the past year.

I urge you to write or call our legislators and tell them you oppose giving the police officer the right to be judge and jury, to take driver licenses on the spot.

This is supposed to be government by consent of the people, not a bunch of self-serving politicians and bureaucrats who have your readers will call our legislators and voice their objection to this another end run around our constitution.

To: A Concerned Citizen

First, for your unsigned letter
Thank I would like to thank the young lady or young man who took the time to put a letter in our over-night box pointing out all that is wrong with the Carlisle Mercury - even though talking in person makes corrective action much easier.

The wait seems endless . . .

everything in his hands his family. He knows that our country is doing right and as far as I'm okay, I support it. "I think we're doing the right thing. He (Hanson) is a crazy man. He's crazy! He has to be overpowered. I give my husband 100 percent of my support; and everybody that's over there.

"I don't know if he wanted to do something else with his life. But that was his main goal. He wanted to have the title 'Mariner'."
He wanted to go to tank school and went for training at Ft. Knox the following summer. He went one week and a month. I don't know what he did but he got a Marine.

"I suggest a budget for my mom and dad. I don't know how long I've been active in my life, and the people at work and how I'm doing. My friends, who you think would be out running around, call me to see how I am."

"I don't know about Viet Nam, but I've heard stories. It makes me sick the way the chertey acted toward the men and women. I'm sure there were women there. At least there's men and women fighting now. I just think a woman can do anything a man can do. That's just my opinion. I think I love my country very much. I think he's the most patriotic person I've ever met. He'd do anything for it, so he was ready to go August 4. That's the way 'ya' die. He'd do anything for his country. He's so very patriotic. I think I love my country. He comes to the National Anthem, he comes to attention - I mean, God bless you. I'd hate to see the day he'd ever see someone burn the flag, well, . . . His country is . . ."

There are certainly other items, from other schools, we have tried to include, but sometimes this information is not made available to our publication. The information from Morehead is faxed to us on a weekly basis, and we do not have the time to include news from other schools. There are, and members of their families who have invested many dollars in the education of their children.

We have tried to expose our readership to as much as possible from an institution of higher education, located even try to cover The University of Kentucky or Eastern Kentucky University. This represents the students attending MSU from our readership. The others simply do not.

Morehead invites us to their activities as a media source, Eastern, Western, UK, Murray, Kentucky State, and Northern do not. The university also assists us in information relative to Nicholas County and students at attending MSU from our readership. The others simply do not.

As far as an encouraging word for the University of Kentucky Wildcats, the writer mentioned, I would assume you are talking about the basketball team . . . or maybe the football team.

The basketball Wildcats do enough speaking for themselves. I am a premier basketball program still will continue to be many years in the future. Once this Wednesday night game is over, the nation's teams that are eligible to compete for UK games. First, we can't get access to UK events, since the daily media takes up all the space available. I'm not sure what could we possibly write the daily paper doesn't already do?

We're not against UK, the football program will come along, and things will continue to get better. It is that an encouraging word, I don't know, but I do know our limitations and what happens when we try to do more than we have the capability to do. I know UK will always be in the hearts of most Kentuckians, win or lose.

We will do our best to cut down on the mistakes which are committed in the future. I'm sure that I might add, there has to be decisions made when you must decide between going to a wreck or a fire or covering a meeting at times we would rather proof read what we do. We are sorry if this causes an inconvenience, but we do the best we can in the 20 hours a day we have to work.

Thanks for writing. I would have liked to have discussed this in person, but I'm sure that you and I are glad you were able to express your opinions. And so, for another week, thanks and thank you.

NOW, More Than Ever, You Need To Know You Can Trust Your Bank. For over 125 years we've kept the money of Nicholas Countians safe. Dependability. Trust. Security. From A BANK YOU CAN COUNT ON.
