Blood drive on June 17

The need for blood is always critical during summer months. Vacations and factory shut-downs cause many people to forget about donating and the need for blood.

Also, warm weather means more outdoor activities and traveling, which leads to a greater number of accidents. Therefore, less blood is available while more blood is needed.

How can we fight this potentially dangerous situation? The solution begins with blood drives, like the ones in Nicholas County.

The Nicholas County Hospital will sponsor the next county blood drive on Monday, June 17 from 2 p.m. to 7 p.m. at the hospital conference room.

All donors will receive a free summer t-shirt. At least 40 donors are needed at the drive to help fight summer shortages. Anyone who is in general good health and between the ages of 17 and 67 is eligible to donate. Donating only takes a few minutes and can mean a lifetime to someone in need.

Please fight summer shortages before they start. Donate blood on June 17 at the hospital conference room. For more information, call Cathy Brunker at 289-7181.
