Fire Reports

City of Carleise
The fire was in the chimney area, according to the fire department report and was a result of creosote build-up. Firemen removed embers by pike pole and used chemicals to extinguish the fire. The fire was apparently under the hearth in the basement and was caused due to cracks in the hearth allowing ashes to fall through the floor. Firemen used water to extinguish the fire which had embedded itself into the floor below the hearth.

Nicholas County
Nicholas County fire and rescue members were called to a two vehicle injury accident on KY 36 in front of Jockey International. Firemen used the Jaws-Of-Life to free one victim in the accident and assisted with the landing and take-off of the University of Kentucky helicopter.
