Success Story

Mrs. Fryman was extremely nice and was able to set an appointment suitable to me and also gave me good directions to the office. When I arrived, the office was cheerful and I was welcomed with a friendly face and voice. From there it was educational as well as helpful.

Everyone knew their job and proceeded to explain each step. Dr. Pretsch was not in too large a hurry, but acted as though I was important, and took time for an extremely thorough examination explaining all aspects from the examination to the different types of lenses.

I will be back and I will recommend Dr. Pretsch to everyone. I can see better than I have in years and the glasses are comfortable.

"We're taking heat and cooling from the ground. And that's just about as resourceful as you can get." — Tracy Royste, Flemingsburg, Ky.

When Tracy Royste built a house in Flemingsburg for his mother, Marjorie, they chose geothermal heating and cooling.

"We were looking for the lowest overall cost," Tracy says, "and geothermal's a low operating cost will pay back the price difference. The return from KU help, too."

"You can go from room to room and there's no difference in temperature," Marjorie says. "And it's clean, quiet and carefree. It's just a really good way to heat a house!"

"Another thing I like is the free hot water, too," says Tracy. "That's big savings. I could go on and on. I would recommend it to anybody."

For more information, contact a customer service representative at the local KU office or a heating and cooling dealer today.
