LETTERS TO THE EDITOR

As principal of Nicholas County Elementary, part of my responsibility is the safety of our children. On Monday, September 9, we had our first fire drill for the current school year. We have a new fire alarm system, which now requires that I call the fire department on my cell phone. I know that a drill is to be held, but it is not always clear and that call has not been placed, the company automatically dispatches the fire department to the elementary school.
Needless to say, I did not know that I was to have a fire drill, and for the first time in my 12 years of teaching.
